German Army Near War Basis

Only Manoeuvres, Says
Berlin; 1,300,000 Reser-
vists Up, Say Reports

Paris Gets Reports

BERLIN (AP)—Germany is
on virtually a war-time footing
as the time for annual autumn
manoeuvres nears.

Nation-wide preparations are
proceeding at top speed for a
type of manoeuvres to be used
by Germany for the first time
since the Great War—creation of
entirely new units for training
reserves in six to 10 weeks.

Military observers are unable
to estimate the number of troops
involved in the fall war games
because the manoeuvres are to
be carried out sectionally, rather
than in one massed display, and
there is no precedent for figuring
the extent.

(British and French news-
papers reported 1,300,000 German
reservists had been called for the
war games).

CARS ARE TAKEN

Reports from Munich said Ba-
varians were disturbed by mili-
tary preparations along the
German-Czechoslovak frontier.
In that region army authorities
requisitioned automobiles, trucks,
furniture vans and municipal
vans for military use.

Authorities assured Bavarians
the preparations were for the
usual fall manoeuvres.

Military experts say the new
reserves to be trained during the
war games are to be drawn from
the volunteer classes of 1934, 1935
and 1936 as well as classes which
were released last year.

Possibly, also, experienced
World War veterans of the Land-
wehr units, up to the age of
45, are to participate. Only part
of these classes are involved, it
was said.

REPORTS TO PARIS

PARIS (AP)—France today
has instructed her diplomats
abroad to transmit immedi-
ately to Paris all information
available concerning military
preparations now taking place in
Germany.

Foreign Office officials de-
clared reports of German mili-
tary measures of unusual size
were "being followed by diplo-
matic circles with the greatest at-
tention."

An authorized source said in-
formation in the Foreign Office's
possession showed "important
manoeuvres will be held in the
Reich."

The statement was made in
regard to reports of huge German
troop movements published in
French and British newspapers.

These sources said "it seems
excessive" to call German troop
movements "mobilization," as re-
ported in some French and British
newspapers, and declared the
German troop figures cited in
the European press appeared
exaggerated.

PRESSURE PLANNED

Some belief was expressed in
Foreign Office quarters that
German military preparations
were designed to aid diplomatic
pressure on the Czechoslovak
government as well as on Great
Britain and France for a rapid
solution of the Sudeten minority
question.

While saying "anything can
happen," Foreign Office and di-
plomatic circles in the main were
inclined to believe the prepara-
tions were designed only for
pressure and discarded the proba-
bility of conflict.

THE WEATHER

VICTORIA, 5 a.m. today—Pressure is
falling over northern British Columbia,
remains high off the coast. The weather
has been mostly fair and comparatively
cool in this province with the exception
of a few light scattered showers near
Vancouver Island. Heavy thunder showers
have occurred in many parts of Alberta
and Saskatchewan.

Uniformity Of Laws Sought

VANCOUVER (CP)—Leading Canadian constitutional lawyers from every province except Quebec were meeting here today in the 21st annual conference of the Commission on Uniformity of Legislation, a preliminary to the annual meeting of the Canadian Bar Association which will open here next Wednesday.

Attempting to avoid conflicting legislation in the nine provinces, the commissioners were endeavoring to redraft certain laws in form that would be acceptable to all provinces.

"Object of the conference is to promote uniformity of law throughout Canada, or in such provinces as uniformity may be found practicable," said Wilson E. McLean, K.C., Manitoba legislative counsel and secretary of the commission.

"It is hoped the voluntary acceptance by provincial legislatures will secure an increasing measure of uniformity."

Members of the commission expressed satisfaction with a decision which followed the last conference in Ottawa between representatives of the Dominion and provincial governments to set up a central bureau in Ottawa to distribute information about various provincial company laws.

MOVE FOR UNITY

W. P. J. O'Meara, assistant under-secretary of state of Canada, representative of the Dominion government on the committee, said "it is an encouraging sign of unity in Canada when the problem of duplicate and conflicting legislation is being attacked by two independent commissions."

He said the bureau on company legislation, for which Parliament passed an appropriation at the last session, would be set up within a few months.

Commissioners attending the meeting included R. Murray Fisher, K.C., Winnipeg, chairman; W. S. Gray, K.C., Edmonton, and R. Andrew Smith, legislative counsel of Alberta.

An ox cart used in transporting sacred animals to sacrifice in 225 B.C. was found in a vault of a temple on the Nile, and is now in the United States.

Points Bombed In Shanghai

SHANGHAI (AP)—Tension born of terrorism gripped Shanghai Friday as the metropolis awaited with dread the anniversary tomorrow of the outbreak of Chinese-Japanese fighting in Shanghai.

Anti-Japanese agitators threw two bombs at a Japanese cotton mill in the Italian defence sector of the International Settlement and caused the deaths of two Chinese and injuries to 15.

In the settlement's American zone, another gang eluded United States marine patrols and bombed a Japanese box factory, without casualties. Japanese property in the British sector also was dynamited.

VOLUNTEER PATROLS

Officials of the settlement called out civilian volunteer military units, composed of United States and other business men, to patrol streets or to hold themselves ready for emergency calls. Russian mercenary soldiers were summoned to help keep order in the French concession.

Authorities charged Japanese army cars were used for distributing anti-Chinese literature. Officials of the International Settlement said a Japanese airplane flew over the western part of the settlement, scattering leaflets attacking Chinese General Chiang Kai-shek.

The officials said they considered the alleged Japanese action "gravely serious" and designed to stir up further disorders among the already excited populace.

SENTRIES STONED

Fifty Chinese men, women and children threw stones and bottles at Japanese sentries between the French Concession and Japanese-occupied Nanotai district. French police cleared the area.

Heavy guards watched the Chinese concentration camp at Kichow Park, where 17 Chinese and seven Russian International Settlement police were hurt Thursday in a fight after Chinese prisoners had raised the Kuomintang (government) flag. Two of the injured died Friday, and others in the camp declared a hunger strike in protest against refusal of settlement authorities to permit hoisting of the flag.

Weekly Editors To See Gardens

Will Relax For a Day at
Butchart's After
Convention in Vancouver

Men and women from one-quarter of Canada's 600 weekly newspapers, their ages ranging from 26 to 76 and their home addresses from Vancouver Island to Newfoundland, will visit Butchart's Gardens on Sunday as guests of the Times and the Colonist.

The 150 delegates who are attending the annual convention of the Canadian Weekly Newspapers Association in Vancouver, will arrive here from the mainland on the afternoon boat. They will be taken straight from the dock to the gardens in chartered buses.

They are a cross-section of the country editors who have kept personal journalism alive in Canada, often running their papers in a family tradition and in some cases doing almost every job in the plant from editor to advertising manager and reporter to make-up man.

Their president is George W. James, owner of the Canadian Statesman of Bowmanville, Ontario, which has been in his family for 65 years. He started in the business setting type at the age of 11. With him is his son, Bill, who some day will succeed him to the editor's chair.

Managing director and secretary of the association is C. V. Charters of the Brampton, Ont., Conservator, one-time lacrosse player and personal friend of all the Dominion's weekly editors.

OLDEST AND YOUNGEST

Donald C. Dunbar, 76-year-old editor of the Estevan, Sask., Mercury, is the oldest newspaper head attending the convention. E. Miller, 26, editor and publisher of the Jarvis, Ont., Record, is the youngest.

In point of youthful experience top place goes to F. C. Dunning, editor of the Ladner, B.C., Optimist, who at 28 has directed the paper's policy for eight years. His mother, who is accompanying him on the trip, is the paper's owner.

Hugh Savage of Vancouver Island's Cowichan Leader and A. L. Barrett of the Western Star of Girdling, Newfoundland, represent the two most widely separated papers at the convention.

Among the other British Columbians taking part in the meeting are Mrs. George Murray, manager and editor of the Lillooet News and wife of George Murray,

UTILITIES COMMISSION FOR VICTORIA SOUGHT

(Continued from Page 1)

TWO ALTERNATIVES

"Only two paths lie open if the purpose of the report is to be accomplished," Mr. Beck informed the council. "Both are predicated on the universally-accepted principle that monopolistic public utility services are at the disposal solely of the people served. One path is that of outright public ownership of the utilities, the other path is that of public regulation and control of the privately-owned utility companies who would be permitted to render the service."

He referred to circumstances, including the unpredictable reactions of the privately-owned power company and the provincial government toward the steps taken by the City Council following presentation of his report and recommendations, which might force the city into operation of its own utilities.

"There are now laws upon the provincial statute books which provide some limitations and regulation of utilities," Mr. Beck said. "These inadequate laws are and have been largely inactive. The report shows that excessive electric rates are being charged the people in their homes and in their business institutions. The report shows that the city itself in paying for electric service incidental to city government, such as municipal buildings, schools, etc., are paying excessive and discriminatory rates. At the same time the utility which benefits from these excessive rates is, and has been, paying far less than its just share of the costs of city government."

DECREASED CITY SHARE

Mr. Beck summarized the estimated annual revenue from the sale of electricity in Victoria, the amount the company paid in taxes and fees and the percentage of the revenue contributed to costs of city government.

In 1915 the estimated annual sale of electricity was \$174,000, the taxes and fees paid to the city \$10,191. On that basis the contribution towards costs of government by the company was 6.28 per cent of its revenue.

Last year he estimated the sale of electricity at \$574,574, three times that of 1915. Taxes and fees had increased approximately \$3,751 and the per cent of revenue devoted to the costs of civic government had shrunk from 6.28 to 2.43.

NO CONSIDERATION

Rates in Victoria, he said, could be charged without any consideration of fair return and were justified solely on the grounds "that the people of Victoria are getting lower rates than the company could charge if it chose."

"Requests to the company for information necessary in order to determine the fairness of rates charged are denied even to city officials," he added.

Appended to his report were utility regulatory schemes in various states and tables of rates in other centres, which show residential rates in Victoria to be "extremely high and consumption extremely low."

Father Fined for Spanking Daughter

ORANGEVILLE, Ont. (CP)—First "spanking" 17-year-old Irene McCutcheon had in her life cost her father \$47.97 when he was fined today on an assault charge. "I believe in correcting my children only by talking to them," said the mother, who laid the assault charge against her husband, Earl McCutcheon, Malmur Township farmer.

Magistrate W. F. Woodliffe declared McCutcheon had "little provocation" and used "too much strength" in "spanking" the girl. McCutcheon said the girl had disobeyed him by refusing to go with him to a celebration at nearby Horning's Mills.

EDUCATION RESEARCH

HALIFAX (CP)—Delegates to the combined convention of the Canadian Education Association, the Canadian Federation for Adult Education and the Canadian Handicraft Guild, which will open here August 15, will consider establishment of a bureau of educational research in Canada.

M.P.P. and E. M. Daly of the Roseland Miner.

H. E. Rice, head of the Huntsville, Ont., Forester, is also mayor of his town. E. G. Hastings of the Dunville, Ont., Gazette, works within earshot of Niagara Falls.

Between them these men and women represent every side of the Canada outside the big cities, the interests of agricultural, mining and lumber districts, and every shade of political view in the Dominion.

Prime Minister Answers Hepburn

Gift Tax Protects
Provincial Source,
Ontario Premier Told

OTTAWA (CP)—Amendments to the gift tax, made effective in the last budget, safeguard the revenues of both the Dominion and the provinces, Prime Minister King has told Premier Hepburn of Ontario. Correspondence covering the controversy which has broken out between the provincial and Dominion leaders was released from Mr. King's office here today.

At St. Thomas yesterday Mr. Hepburn said the Ontario government had withdrawn from further discussions of the Royal Commission on Dominion-Provincial Relations, and added he had received acknowledgement of the move from Prime Minister King.

The letters made public today disclosed the amendments to the gift tax were designed, as stated by Mr. King, "to prevent the evasion of liability to income tax by gifts of income-producing assets made by well-to-do persons to their relatives." The effect would be to protect both the Dominion and provincial revenues.

The interchange makes no mention of amendment 32 (B) of the Income War Tax Act, which Mr. Hepburn yesterday declared was unfair to the mining companies. It was understood Hon. J. L. Halsey, Minister of National Revenue, was awaiting the return of C. Fraser Elliott, Commissioner of Income Tax, expected back from Europe later today, before replying to the Ontario Premier.

AFFRONT SEEN

Mr. Hepburn took issue with the Dominion Government for having amended the Income War Tax Act, in respect of the gift tax, before the Rowell Commission on Dominion-Provincial Relations could render its report. This, he declared, constituted an affront to the commission. He also registered protest against "further invasion of provincial fields of taxation" by the Dominion administration.

Premier King recalled the gift tax was three years old, having passed in 1935. The tax was not a large revenue producer, but to the extent that it prevented the transference from one person to another of income-producing assets, in the way of gifts, it would "maintain unimpaired the sources from which the Dominion and those provinces imposing them derive their income taxes."

The Dominion Prime Minister agreed there might be double taxation involved "in some few cases where gifts are made within a limited period before the death of the donor," but felt that knowledge of the gift tax provisions would act as a deterrent to such acts.

By so discouraging them, the gift tax would not only preserve intact the capital from which both the Dominion and the province derived revenue, Mr. King said, but would also leave unimpaired the estate on which succession duties were levied.

RAIL VETERAN OF VANCOUVER DIES

W. H. Evans, Who Brought
First Train Into Port
Moody Succumbs

VANCOUVER (CP)—W. H. (Billy) Evans, who drove the first train into the Port Moody terminus of the Canadian Pacific Railway 52 years ago, died today in a hospital where he underwent an operation last week. He was 77 years old.

Noted figure at railwaymen's reunions and one-time president of the Vancouver Pioneers' Association, Mr. Evans suffered a relapse and died less than a week after the operation, which was at first believed successful.

It was on July 4, 1886, that the C.P.R.'s first train came chugging into Port Moody from the east with Billy Evans at the throttle. And he piloted C.P.R. trains or worked in other railway jobs from that day until 1927, when he retired.

In 1902 he was appointed road foreman of engines and in 1912 became divisional master mechanic, the position he held until his retirement.

Surviving him are the widow, two daughters and four sisters.

FIRE LOSS AT U.B.C.

VANCOUVER (CP)—A spectacular fire destroyed one of the experimental poultry houses at the University of British Columbia yesterday. The loss is estimated at about \$1,500, covered by insurance. Scientific equipment and incubators went up with the flames. There were no chicken casualties.

Guards Posted at Siberia Border

By J. D. WHITE

Associated Press Staff Writer

YUKI, Korea (Near the Siberian Frontier)—Unofficial reports from the border war front said fighting had ceased at noon Thursday as agreed by diplomats of Soviet Russia and Japan.

News of the armistice reached this Korean fishing port by radio Thursday morning and visibly relieved tension resulting from the bitter warfare between Japanese and Soviet troops on the frontier of Manchukuo and Siberia.

Military authorities maintained guards, however, against renewal of hostilities though it was generally believed here that the way for peace had been opened.

Hundreds of Korean peasants, refugees from the war zones near the Siberian border, started back for their shattered homes along the Tumen River.

Press Urged To Fight Abuses

VANCOUVER (CP)—W. L. McTavish, editor of the Vancouver Daily Province, told the annual convention of the Canadian Weekly Newspaper Association here today it was the business of editors to see there was no shadow of truth in the radicals' sneer at the "capitalistic press."

Mr. McTavish said newspapers upheld capitalism out of the conviction that it was the most satisfactory economic system yet evolved in the present state of the world's progress and added: "But let it never be said of us that we have lost the power of protest against the abuses of capitalism and have forgotten its weaknesses and ceased to fight against its injustices and inequalities."

The struggle of the free press was fought largely for the freedom to speak out the wrongs and woes of the underprivileged, he said.

"Journalism is a profession of protest," he stated. "It is our calling to search out that which calls for protest in the conditions of our world and to voice that protest on behalf of those who are otherwise voiceless," he said.

Mr. McTavish told the delegates they could find scope for crusade province and your own Dominion."

Japanese Shot On Sakhalin

Clash on Island Disturbs
Russian-Nipponese
Truce at Siberia Line

TOKIO (AP)—A new border incident involving Japan and Soviet Russia was reported today from Sakhalin Island, where Japan and the Soviet Union divide control.

Domei (Japanese news agency) dispatches from Shikika, one of Sakhalin's principal cities, declared Russo-Japanese tempers had flared again over the alleged shooting of a member of a Japanese "inspection party" by a Soviet secret police agent.

Japanese police rushed to the scene of the incident near the frontier which separated Japanese and Soviet halves of the long northern island off the Siberian coast.

Neither the name of the wounded man nor the reason for the reported shooting was made known.

The inspection group, led by a member of parliament, included numerous prominent Japanese.

The incident came while Russian and Japanese troops kept an armistice on the border of Siberia and Manchukuo, where serious hostilities were waged from July 29 to August 11.

PRESS OPINION

The Tokio press reflected a feeling of doubt Friday that the Siberian frontier truce would end Japanese-Russian troubles.

"It remains to be seen whether Moscow's instructions will be observed strictly by the Far Eastern army authorities," said the newspaper Asahi editorially.

A sharply-defined border and extensive fortifications were urged by the newspaper Miyako.

"There still remain fundamental differences in the respective views of Russia and Japan," observed the daily Hochi.

A War Office communique said the truce was arranged Thursday between Colonel Cho, representing Japan, and General Shutern, chief of the staff of the Far Eastern Red Army.

They agreed to the suspension of hostilities about Changkufeng Hill and the surrounding area, which Japan says is part of Manchukuo and Russia says is part of Russian Siberia, and to co-operation in removing bodies in

the area between the opposing lines. They arranged a second conference at noon Friday to exchange written documents.

It was announced the Japanese lost 300 dead and 600 wounded in the Changkufeng battles. Soviet casualties were declared to be 3,000 killed and wounded.

The Japanese troops went swimming after the truce became effective, but many were disgruntled that they had been unable to settle the issue themselves, the newspaper Asahi reported.

Security Outlays in U.S. \$1,232,558,598

Revenue From Aid Act in
Three Years Has Totaled
\$887,946,271

WASHINGTON (AP)—The first three years of the Social Security Act cost the federal treasury \$1,232,558,598 and brought in \$887,946,271 of revenue.

Roswell Magill, Acting Secretary of the Treasury, made public today the statistics involved in operation of the law, third anniversary of which will be Sunday.

Federal expenditures for the gigantic pension system have included \$504,204,188 for grants to the states, \$690,000,000 for investments in the old-age reserve fund, and about \$28,000,000 for administration of the law.

Revenue fell far behind expenditures because amounts nearly equal to the receipts are permanently earmarked for the old-age reserve fund, leaving the state grants to be financed out of ordinary treasury funds.

NEW U.S. ENVOY TO RUSSIA SOON

WASHINGTON (AP)—President Roosevelt, returning today from his vacation cruise, will have the opportunity to receive from Cordell Hull, Secretary of State, the latest reports on the troubled European and Far Eastern situations.

The Russo-Japanese dispute, though apparently eased, is expected in informed quarters to hasten the President's selection of an ambassador to Moscow.

There has been no public indication of whom the President has in mind for the thorny and not much-coveted post, vacant since Ambassador Joseph Davies was transferred to Brussels, in June

Canadians Back From Spain War

QUEBEC (CP)—Veterans of two years' fighting in the Spanish loyalist forces and sent home under a repatriation scheme for foreign volunteers, 10 Canadians arrived here yesterday in the liner Empress of Britain.

John Gilstrap, former Vancouver medical student, told reporters some of the party were "war-weary" and were glad to return to Canada.

"But the morale of both fighting forces and civilians on the government side in Spain now is at the highest point it has yet reached," he said.

"Coupled with the loyalists' efficiency and their rapidly developing resources in war materials, this morale just now is invaluable and I can see only one end to the struggle—ultimate defeat of Franco."

The strictest orders were issued by the loyalist government that, under no condition, were towns or any civilian populations to be bombed or bombarded.

"And those orders were observed to the letter," said Lloyd Evans of Regina. The party left by train for Montreal.

A compound fracture occurs when a broken bone is accompanied by an open wound at the fracture.

Give the Pennies a Push!

If your budget is stuck—so much for this and just so much for that—give the pennies a push!

For the pennies will go farther if you push them in the RIGHT direction. If you don't lose them in hasty purchases and poor bargains, these pennies can put a PLUS SIGN in your spending.

You can buy the summer rug AND a porch chair for the price you would expect to pay for the rug alone. You can buy the summer dress you want AND a summer hat. The camp outfits for the children AND the fishing tackle for your husband.

How?

By reading the advertising pages in your daily newspaper! Here you will find the finest values in town put on display in your own home. You will compare and price and select before you spend a single cent. And then, when you have found a bargain, you will have saved your time and strength as well as money.

Let the newspapers keep your budget moving with a new and greater penny-power!

And then enjoy the PLUS purchases that newspaper-shopping makes possible!

NEW BLACK FALL DRESSES

Just Say "Charge It"

No Cash Down—No Extra Cost Take Three Months to Pay

\$7.89 to \$16.75

Fall's newest Black Dresses... at moderate prices! Dramatically new styles... shirred or slimly molded... styles that FLATTER you! Treat yourself today to one of these stunning NEW black charmers!

FALL COATS

\$17.75 to \$59.50

New styles... unusual fabrics... gorgeous fur collars... outstanding values!

MRS. G. L. BUCKHAM

DUNCAN—The death occurred at the King's Daughters' Hospital here yesterday of Mrs. Jean Neilson Buckham, wife of G. L. Buckham, who has been a resident of Duncan for the last 11 years. The late Mrs. Buckham, who was born at Almonte, Ontario, was a member of the Presbyterian Church, and an active worker for the Ladies' Aid here, acting as president for some years.

OK CIGARETTE PAPERS

only 5¢

She leaves, besides her husband, four daughters, Mrs. J. B. Wallace, of San Francisco; Misses Jessie, Janet and Mary, at home, and two sons, John and Herbert, also of Duncan. A sister, Mrs. S. R. Finlayson, of Toronto, also survives her.

Funeral services will be held at the Whidden Funeral Chapel on Sunday afternoon at 3 with interment at the United Church Cemetery at Soanenos.

In a Pittsburgh skyscraper hospital, a pneumatic tube system carries messages, medicines, and charts quickly to any part of the hospital.

BROTHERS REUNITED AFTER 27 YEARS—A well-known Victoria family is having a happy reunion. Two weeks ago Charles Loney arrived from New Zealand by Ms. Aorangi and was met by his brothers, Wm. A. Loney and Walter Loney, well-known local building contractors, and his sister, Mrs. Thomas Cusack. In the picture above are shown, from left to right, Charles, William and Walter.

COUNCIL WILL SEE NEW BUS

The City Council last night accepted the invitation of the Veterans Sightseeing and Transportation Company Limited to inspect a new type of city service bus on display in Port Angeles on Sunday.

Five aldermen, James Adam, R. A. C. Dewar, W. L. Morgan, B. J. Gadsden, and W. H. Davies, will make the trip to view the machine.

Alderman Archie Willis objected to the city putting itself under an obligation to the company by going as its guests, but was informed by the mayor the trip would not cost the Veterans Sightseeing and Transportation Company anything. It would be paid by the company manufacturing the buses.

NANAIMO—James Kincaid, aged 50, died in Nanaimo Hospital yesterday. He was born at Qualicum, where he worked up until his last illness as a logger. He served overseas from 1914 with the 72nd Battalion Seaforth Highlanders. He leaves one brother, Thomas, Qualicum, and three sisters, Mrs. W. Anderson, North Vancouver; Mrs. C. Crump and Mrs. Henry of Little Qualicum. The funeral will be held at Qualicum on Sunday.

Disputes Coal Report Figures

Chairman of Island Boards Claims Macdonald Figures "All Wet"

NANAIMO—Forty-two members of the Vancouver Board of Trade, under the chairmanship of Charles H. Joy, were the guests here yesterday of the Canadian Collieries (Dunsmuir) Limited officials, John Hunt, general manager, and Arthur Webb, sales agent, of Vancouver. They visited Northfield, Reserve and No. 1 mines.

At Northfield they saw a completely electrically-equipped mine, capable of hoisting 1,200 tons per day with a full staff of 340 men when working full time, working now with but 160 men employed three days a week and hoisting approximately 600 tons weekly.

At Reserve Mine, six miles south of Nanaimo, they found that operations were carried on only one day per week, with approximately 300 miners. At No. 1 Mine, which has been operating since 1884, and which at its peak has hoisted 1,800 tons per day, they found production very low, and were informed that this mine will be closed down for all time within the next two months.

They were told the company has just put into operation a new working at South Wellington which will be known as No. 10 Mine, and which is now producing 100 tons per day.

Following an inspection of the mines the party adjourned to the Malaspina Hotel. Brief speeches were made, and W. W. R. Mitchell, chairman of the Vancouver Island Associated Boards of Trade, expressed dissatisfaction with the Macdonald report on the coal industry, stating the figures in a report regarding costs of production were "all wet," and asked for a more generous support of the coal industry.

J. G. H. Chambers, of the Vancouver board, advocated better support of the mines and miners by Vancouver industrialists.

"We share," he said, "in the individual miner's prosperity, and aside from a question of sentiment, it is good business for us to help the prosperity of the coal mines of the island."

Arthur Webb, sales agent, stated the average production of a miner per day was one and a half tons, and every time this amount was purchased in Vancouver it meant another day's work for a miner.

HAYFEVER SEASON NEARING CLIMAX

Ragweed Blossoms the Real Villains; Goldenrod Unjustly Accused

The opening of the ragweed flowers is the signal for the climax of the hayfever season, which has been working up to its present high point since the pollens of narrow-leaved plantain oak, and various grasses began flying in spring and early summer. These are sneeze-provokers, but do not cause a fraction of the nose-misery that ragweed pollen causes.

Very few people ever see a ragweed flower. They're there, all right, billions of 'em, but because they do not have showy petals we don't notice them. Instead, we see the bright blossoms of the goldenrod and blame that innocent flower for our troubles, although botanists and physicians agree that it is practically impossible for goldenrod to cause hayfever because its pollen is scanty, sticky and heavy—quite unsuited for floating about in the air and getting up people's noses.

Ragweed pollen, like the pollens of all plants that really figure as hayfever causes is abundant, light, dry and adapted to being borne by the wind. That is the only way it has of getting from the male to the female flowers. The hayfever weeds generally, as well as many plants not in the guilty class, depend on the wind and not on insects to carry their pollen for them. That is why bright petals and other insect-attracting devices are unnecessary to them.

There are several kinds of ragweed, of which two stand out as principal offenders. These are the low ragweed and the giant ragweed. The low species is especially abundant in overgrazed pastures and ill-cultivated cornfields; it ranges from one to four feet in height and has finely divided leaves. The giant ragweed is a plant of roadsides, riverbanks, city dumps and other wastelands. It grows as much as 12 or 14 feet in height, and has broad, rough, three-lobed leaves. Besides the ragweeds, there are several other plants that figure

either civil or criminal, he fails to stop his car, tender assistance and give his name and address. Such failure shall be prima facie evidence of an intent as aforesaid.

A third motorist elected to serve two days in jail rather than pay a \$5 fine for failing to stop at a stop sign.

Parking Metre Power Sought

On the recommendation of the police commission, the City Council last night approved a resolution to the Union of British Columbia Municipalities asking that organization to join in a request to the provincial government for an amendment to the Municipal Act permitting installation of parking metres in cities of the province.

Explaining the proposal, Alderman Archie Willis stated the move did not mean the city wished immediate erection of metres, but sought legislative power to install them if a council of a future date should desire to take that course.

Mayor Andrew McGavin stated C. L. Harrison, city prosecutor, had stressed the value of Victoria securing through the Municipal Act amendment powers on the matter equal to those gained by Vancouver through its private charter.

The resolution was read and carried.

Celebration Body Praised

High Tribute Paid Alderman W. H. Davies and Assistants

Any reports that may have been circulated in the city to the effect that Victoria's celebration committee failed to extend any possible courtesies to visiting dignitaries during Navy Week are absolutely groundless, Mayor Andrew McGavin stated at the City Council meeting last night.

"There has been a persistent rumor that the visiting mayors did not receive the treatment that should have been accorded them. That rumor was circulated by a vicious mind," the mayor declared.

His statement followed reception of letters from Portland and other visitors expressing deep gratitude for the courtesies extended to them and preceded a formal resolution of commendation to Alderman W. H. Davies, celebration committee chairman, and his assistants, for their efforts to make the festivities a success.

Alderman Davies and his committee could not have worked harder and I extend to them my personal thanks," the mayor said. Alderman Archie Willis introduced the formal motion of thanks.

LETTERS OF THANKS

Letters were received from Mayor George Miller, Vancouver, thanking the city for its kindness and inviting Victoria to send a delegation to the Vancouver exhibition; from the Portland Rose Festival Association, the Portland festival queen and her party, the Oregon Coast Highway Association and Vice-Admiral Sir Sidney Meyrick, K.C.M.G., commander in chief of the West, Indies and America Squadron, on behalf of H.M.S. York.

Mayor McGavin was asked to represent Victoria at the Vancouver exposition and the celebration committee was asked to acknowledge the other letters, one of which sought a list of festive events for 1939 for inclusion in the Portland Rose Festival publicity pamphlet.

Alderman Davies stated plans were under way for the organization of a Victoria excursion to Vancouver during that city's fair week.

The council, on motions presented by Alderman Davies and seconded by Alderman S. H. Okell, paid high tribute to the assistance and co-operation provided during Navy Week to the city by the Naval Veterans, the Junior Chamber of Commerce and the press of Victoria.

First Charges Under New Law

One Motorist Fined, Another Jailed Under Criminal Code Change

One motorist paid a fine of \$25 yesterday afternoon and another started serving a seven-day jail term following the first prosecution in Greater Victoria under the new amendments to Section 285 of the Criminal Code of Canada.

The penalties were imposed in Saanich Police Court by Magistrate Hall.

A motorist from the province of Quebec pleaded guilty to a charge of "driving a motor vehicle in a manner which is dangerous to the public" and was fined \$25.

The charge was laid under the amended paragraph 6 of the section, reading: "Everyone who drives a motor vehicle on a street, road, highway or other public place recklessly, or in a manner which is dangerous to the public having regard to all the circumstances of the case including the nature, condition and use of the street, road, highway or place, and the amount of traffic which is actually at the time, or might be reasonably be expected to be, on such street, road, highway or place, shall be guilty of an offence."

The section goes on to list maximum penalties on indictment of two years and \$2,000 and on summary conviction of three months and \$100.

In the other case a young Saanich boy chose to serve the seven-day jail sentence rather than pay \$25 after he had pleaded guilty to failing to stop at the scene of an accident under the amended paragraph 2 of the section, which reads in part: "Whenever owing to the presence of a motor car on a highway an accident has occurred... any person driving the motor car shall be guilty of an offence and liable, either on indictment or on summary conviction, to a fine not exceeding \$500 and costs, or to imprisonment for a term not exceeding six months, if, with intention to escape liability

RELIEF GIVEN TO LOGGERS

LADYSMITH—The prolonged shut-down of the Comox Company's logging operations here found an echo at the regular meeting of the city council Wednesday evening, when a delegation from some of those affected made representations for relief assistance.

City Clerk N. A. Morrison explained a basis for an arrangement had been made in conjunction with the provincial relief officers, and relief allowances would be paid on that basis.

Building permits granted by the council included a combined store and dwelling for \$1,500.

General discussion on the closing by-law, which governs the business hours of local stores, arrived at no definite conclusion, and consideration of these matters will be continued.

GARDEN FETE AT SALT SPRING

FULFORD HARBOR—The annual garden fete and sale of work of the combined women's auxiliary of Salt Spring Island and St. Mary's Church Guild, Fulford, was held on Tuesday in the grounds of H. W. Bullock, Ganges. The affair was formally opened by Dean Spencer Elliott. The dean and Mrs. Elliott visited the various stalls and attractions. Later, with the vicar of the parish, Rev. C. H. Popham, the dean visited the parish church of St. Mark's, Central Salt Spring.

One of the major attractions of the afternoon was the tennis tournament. The prize winners were: 1. Mrs. Friele and Miss M. Tucker; 2. Mrs. Weddall and Mrs. Le Marquand. At darts-throwing the winners were Miss Shirley Wilson and Mr. Shaw. The sum of \$180.55 was realized.

Shawnigan Lake will hold its annual gala day on Saturday.

Starting with a parade of decorated cars, bicycles and floats at 10.30 in the morning the program calls for track and field sports in the afternoon at 1.30 and a big dance in the evening at 9.

Thirty-seven events are listed for the sports program.

"Discreet Pressure"

WE ARE TOLD THAT GREAT BRITAIN has put discreet pressure on Premier Mussolini and General Franco to hasten the withdrawal of foreign fighters from Spain's civil war, that Premier Edouard Daladier—under Leftist attack in France for stopping Trans-Pyrenean shipments of arms to government Spain—has joined in this determined resolve on the part of Downing Street to smite Il Duce and his Fascist tool in Spain squarely on the back of their wrists. These are the two moves said to be agreed upon, according to today's dispatches from London, by the British and French administrations:

1. A suggestion to the Italian Premier that reports Italy was sending more troops and material to insurgent Spain were prejudicial to the Anglo-Italian accord which is to be effective upon a "settlement in Spain."
2. Advice to Franco that his explanation of delay in accepting the British plan for withdrawal of foreign soldiers was "unsatisfactory." Franco had said "the intricate nature" of the plan caused the delay.

For months the British Government has known that Italian troops and mechanicians, airplanes and munitions, have been finding their way to insurgent General Franco. Distinguished members of Prime Minister Chamberlain's own party, the Duchess of Atholl and Viscount Cecil, for example, months ago made this quite plain. Their charges have not been answered. Even the government itself has become quite adept in phrasing protests against the bombing of British ships and the killing of British seamen by Fascist war planes. But when General Franco speaks about the "intricate nature" of the plan to remove foreign "volunteers" from his battalions he is merely advertising the fact to the world that he needs every man he has and many more besides before he can deliver to his "boss" in Rome the victory he requires to facilitate the operation of the Anglo-Italian "friendship" pact.

It is plain, of course, that this "discreet pressure" which Great Britain is applying is a weak copy of the Litvinoff technique which worked quickly in the case of the third partner to the Tokio-Rome-Berlin axis. If Anthony Eden had been permitted to "speak to" Mussolini and Hitler six months ago, there is ample evidence to prove that not only would no war have been provoked, but also that much of the tension now giving Europe a bad attack of the "jitters" would have been avoided.

Dr. Manion Speaks

BACK IN BARRY'S BAY, ONTARIO, HON. R. J. Manion, leader of the National Conservative Party of Canada, has just delivered an address on a variety of subjects. In a general way he expressed sentiments and employed arguments with which most Canadians will agree. From a lengthy report of his observations it is simple to extract some of his more definite conclusions.

Dr. Manion would have the Dominion Government accept full responsibility for relief costs; he would preserve the two-party system; he would "build up our country" to make a contented and happy people; he would adhere to the British way of doing things—the preservation of parliamentary institutions, freedom of the press, freedom of speech and freedom of assembly; he would safeguard the individual's right to make a profit. Dr. Manion considers four things are necessary to justify the British democratic system today: Greater opportunities for youth, work and wages for all willing to work, security for the aged, and a fair deal for all.

The relief problem, of course, is one of Canada's gravest. It calls for new courage and still greater vision. Nor must Dr. Manion complain if he is reminded that the government of which he was a member from 1930 until its defeat (which included his own defeat in Fort William) in 1935 fell down badly on its unemployment policy. Mr. Bennett got himself—and his party—elected in that summer of eight years ago on the strength of his promise to end unemployment or "perish in the attempt." It is admittedly late in the day to revive the Conservative rallying cry of 1930; but Dr. Manion accepted office in the Bennett ministry, held the portfolio of Railways and Canals from August 7, 1930, to October 23, 1935, and we do not recall any complaining outcry from him either in the House of Commons or on the public platform against a leader who had far from measured up to his undertaking.

Was it Dr. Manion's Liberal upbringing, perchance, that made him feel sheepish when his leader boasted the tariff which, by contributing to the reduction of an external trade worth \$2,600,000,000 to one of less than \$800,000,000 all in the short space of three years, limited the "opportunities for youth"; made it much more difficult to provide "work and wages for all willing to work"; and helped to postpone the day of a program insuring that "fair deal for all" of which he speaks and which is—as the Conservative leader knows full well—an integral part of Liberal policy and Liberal philosophy.

Dr. Manion's speech at Barry's Bay, however, was in strange contrast with that delivered on the same day in Calgary by his predecessor, Rt. Hon. R. B. Bennett, who

used up a lot of time telling Canadians the same fairy story about economic probabilities and the new Canada-United Kingdom-United States trade treaty negotiations that he told here in Victoria during last November's federal by-election campaign. But this fact remains: Mr. Bennett was the leader of a government of which Dr. Manion was a member—supporting that leader's policies for more than five years.

Hungary to Goose-step?

TO REPATTERN HUNGARY'S REGIME along the lines of the Italian Fascist corporate system, a four-day Ministerial Council is due to convene at Budapest this week. This follows Premier Bela Imredy's visit to Rome with his foreign minister, Koloman de Kanya, at the conclusion of which an official statement was issued saying: "The objectives of peace and justice which inspire Italian and Hungarian policies are in harmony with the aims of the Rome-Berlin axis and are premises for wider and more efficient co-operation in the international field, open to all those who sincerely aim at order and peace."

The agenda for this week's session contains veiled promises for social reforms, but the first order of business is listed as consideration of the establishment of a corporate system both for the economic and spiritual life of the country. This is to be followed by the consideration of measures to speed up land reform and the improvement of social conditions in rural districts. Other policies to be considered will have to do with the creation of social welfare institutions for workers similar to those existing in Italy and the regulation of wages based on size of families. The creation of a Hungarian "Dopo Lavoro" (Strength Through Joy) organization and the establishment of a Propaganda Ministry will also be discussed.

It is possible that by the end of summer, Hungary will be an authoritarian state with the suppression of labor unions, non-Fascist parties, democratic institutions and democratic rights, and the creation of a strong, government-organized anti-Semitic movement. Hungarian workers, peasants and small business men may soon be knowing the blessings of Mussolini-Hitler-Imredy Fascism.

A Democratic Obligation

WE ARE OFTEN INCLINED TO FIND boring the continual talk these days of the various "challenges to democracy," the "threats from within and without." But the frequent admonitions to concern ourselves personally with public affairs and keep our interest in government constantly alive should not leave us cold.

The democracy we enjoy will not survive without our personal concern. Boredom or indifference is one of the gravest of those "threats from within." A dictatorship is a lazy man's government. A democracy is most decidedly not.

One of the best imaginable reasons for the maintenance of our interest in our government becomes clear with a little reflection on an observation made by an educator during a recent teachers' gathering. The constant danger in a democracy in which the citizens are not alert, he said, is that the people will not know in whose hands the power lies and what is being done with that power.

If we lived under a dictatorship it would be crystal-clear where the power lay. Our obligation as citizens of democracy is to keep informed.

Those who live by the sword shall perish by the sword.

This agnostic age discounts miracles, but how can we account for the fact that so many on the highways don't get killed?

SEE HOW THEY CRAWL

From New York Post

It is stimulating to see the Imperial Japanese government wipe the arrogant smirk off its face and approach the Russians, cap in hand, with a plea for peace on the Manchukuan border.

What has happened in the Changkufeng hills is of the same order as what happened a few weeks ago on the German-Czechoslovakian boundary line.

The modern apostles of force, the toughies of the Rome-Berlin-Tokyo axis, are bold as all get-out when the opposition consists of naked Africans, unarmed Chinese, and peace-loving Spanish peasants. But when their offer of force is answered in the same idiom, they show almost indecent haste in stopping to think things over.

The Czechs showed that it could be done. Their mobilization in answer to the German threat may yet go down in the books as a turning point. The success of the Czechs in making Germany halt its obviously planned invasion took the ferocious mask off the bogeyman and showed that his lips were pasty.

A similar sequence of events has taken place on the Manchukuan border. Russia claims the Changkufeng hills under an 1896 treaty with China. Japan holds at least a part of this territory, through its Manchurian forces. And Japan has been making ferocious faces at Russia across this border ever since Mukden and 1931.

Russia, undoubtedly with the motive of helping China by forcing Japan to divert troops to this point, has decided to say it with cannon and planes. After a week of sporadic fighting we find the Japanese, at considerable loss of face, proposing an armistice, suggesting that both sides withdraw from the area until an international commission can draw a just boundary line.

From the incident, the world does draw two grains of comfort: Japan is slowed up in China by its Changkufeng troubles; and it has been demonstrated that arrogance alone does not win battles, that aggressors can be stopped.

Bob Davis Reveals:

The Adaptation of Great Inventions to the Art of War

IT IS INDEED disturbing that mankind, as a result of individual imagination and ingenuity and with no thought other than to advance the cause of civilization, should have brought forth such an astonishing supply of paraphernalia requisite to world destruction.

When Franklin sent his kite aloft and borrowed a flash of lightning from the sky, he had no idea that some day the pressure of a button would liberate a captive electric spark and wreak havoc when and where man designed that it should occur. Nor did Gatling in his wildest dreams foresee the nightmare bred of his machine-gun bellowing on high from an airplane designed primarily to facilitate human transportation through space at a rate of speed faster than had been previously accomplished by land or water.

William Kelly's discovery that a blast of cold air would turn molten cast iron into steel fit for high-grade tool-making and enduring construction resulted in the manufacture of battleships, cannon and weapons of war that have plunged all the nations of the world into debts that never can or will be paid.

Internal gasoline combustion, a natural outgrowth in the quest for more power and greater speed in answer to the world's demand, became the dominant factor in the construction of mechanisms fabricated for human slaughter; the blotting out of populations and extension of the radius over which a reign of terror could administer its annihilations. Mars, adapting every invention inspired by the cause of progress, succeeded only in retarding it.

WHO COULD HAVE guessed that the clumsy heavier-than-air machine which the Wright brothers succeeded in lifting under its own power at Kitty Hawk, N.C., in 1903, was the forerunner of mighty flying fleets, geared up to cover from 180 to more than 300 miles an hour at an elevation that renders them invisible from the earth, flying the flags of all nations, bearing tons of high explosives capable of desolation beyond calculation? What seer could have prophesied that this canvas and bamboo bird of passage would breed by the tens of thousands, hundreds of thousands, if not by the millions? The supremacy of the air means the supremacy of the world. Metal monsters over all.

Nothing that in any way contributes to the business of war is overlooked by those concerned in it. An apparently harmless constituent in itself may be the one ingredient that will convert vegetable matter into an earthquake, and the war gods will give the new explosive a try on the next generation.

Nobel, described as a chemist and philanthropist, made practical the use of nitroglycerine by the invention of dynamite in 1866 and gun cotton in 1875. He made a fortune in the manufacture of explosives, most of it put to practical use in mining and construction. In his old age he reversed the usual order with the creation of the Alfred Nobel Foundation amounting to \$9,000,000, the interest of which is yearly distributed to those who have conspicuously contributed to the benefit of mankind during the year: preceding: physics, chemistry, medicine or physiology, literature and the promotion of peace. They may be divided between two or more candidates. These awards amount individually to about \$40,000. The foundation was established in 1896 when the world was not quaking in the throes of nationalism. There is room just now among the Christian nations for more men of Nobel's kind.

PRACTICALLY ALL of the machinery brought into existence by the demands of industry, transportation and even luxury and pleasure has been appropriated for use in war, converted in one way or another to the pursuit of conquest. There is not a single machine of the many created to handle the products of peace that has not been taken over bodily to promote the enterprise of war. Every factory is capable of swift transformation into an arsenal.

It is reasonable to assume that all progress tending to lighten man's labor, or at least make it more agreeable, would encourage a state of mind looking toward human betterment; that whatever strides were taken with the idea of converting action and industry into profitable enterprise would have the endorsement of the mass; that peoples and nations wish to succeed, to progress, to achieve, but on every hand we find evidence of feverish anxiety, not to unify and save the world, but to abolish it completely.

It is difficult to reconcile the progressive present with the primitive past, except to the detriment of the former. One is led to ask, in the present state of the world's civilization, whether it would not be just as well to turn back the pages of time to the era when every man settled his disputes with his own hands and each lived the life he preferred, sans outside interference.

Two thousand years of Christianity and still we are not civilized or free.

SLEUTHS' JOBS

Henry Arthur Leslie, British Scotland Yard detective inspector visiting the United States, was asked in an interview to make some comparison of the methods and work of the Scotland Yard man and the G-man. His reply was that it would be impossible to find a basis on which any comparison could be made.

He reminded the interviewer that the subject of the English detective's investigation was a "homogeneous population"—Englishmen—while the G-man dealt with every nationality on the vastness of the G-man's field; Great Britain is about the size of New England. He stated that large-scale criminal activities and crimes of violence were comparatively rare in England.

"Burglars and petty thieves," Leslie observed, "are our greatest problem."

Inspector Leslie, incidentally, was not in the United States on a pleasure trip. He came to take a course in crook-catching at the F.B.I.'s "National Police Academy."

Radical: A person who thinks you an enemy if you won't help him destroy the plum tree that feeds both of you.

Who Owns North Sea?

From Chicago News

ALL AT ONCE that incurable busybody, Mr. Samuel Pepys, heard the thunder of cannon from the Thames. Hardly believing his ears, he pattered out to find the streets broiling with housewives stark with fear, lords leaning with grave looks from coaches, and surly watermen growling that the Dutch admiral, de Ruyter, had sailed up the river and turned his guns on London!

No other mishap, not even a faithless wench, could so have wrung the heart of the admiralty secretary. For all his lights of love and tears of his wife, poor wretch, he had espoused the English navy as his one true love. By immense toil and inflexible honesty, he was the one man to safeguard the growing fleet from swindling contractors and public indifference; and now an impudent Dutchman had not only pommelled stout English timbers, but was blowing down Upon Castle and burning the shipping at Sheerness! That night Mr. Pepys would put it all down in his secret diary—and so to bed.

In these times, how hard it is to remember that in two wars—under the Commonwealth and the Restoration—England and the Netherlands exchanged long, bitter blows for the sole ownership of the North Sea. While Mr. Pepys was building up that navy which now dominates the oceans, the Dutch paraded the greatest merchant marine and fighting fleets in all the globe, with the North Sea as the axis of their power. What huge profits accrued from the herring monopoly! What incalculable riches flowed back from the Far East into the coffers of those who closed their grip on the gray home waters! And yet, for all the genius of de Ruyter and van Tromp, it was England who won, and the Dutch had to be content with what England—grown into Great Britain—did not really covet. Mr. Samuel Pepys, that gossip and empire builder, had seen to that—with the eyes which later went blind from the dim light of candles.

For the first time since the years of Samuel, the English and Dutch have come into conflict over the ownership of the North Sea—and that only the other day. A bit prematurely, it must be confessed, the British Admiralty notified the Royal Dutch Air Lines that vast air manoeuvres would straddle the North Sea, and so the Dutch passenger planes must avoid these concentrations. Quite properly the Dutch replied that although they perfectly understood the closing of prohibited areas over England, the North Sea belongs to no nation and no country can close it to international trade.

The exchanges were courteous—oh, quite—but victory remained with the Dutch, who even in the process of becoming the most peaceable of nations, have lost none of that historic stubbornness—whereby, time and again, they once humbled the proud Islanders.

NO MORE NUDE BATHING?

To the Editor:—There is one advantage that may accrue from the zealous efforts of our five commissioners of the Brentwood Bay Parks Board, if they will enforce the Parks Act. Section 7 says "No more preaching or loud praying in the park." (As formerly happened on the small island in front of Brentwood College in previous years.) Section 14 says "No more midnight nude bathing from launches or shore lines, as everyone must be properly clad in a bathing suit."

Another item needing attention would be the opening up of street ends without fear or favor to those beautiful beaches which may soon be a thing of beauty and a joy forever. Much more might be said, but I have encroached upon your space sufficiently.

W. N. LENFESTY.

R.R. 1, Saanichton.

EGGS AND BLUE DANUBE

To the Editor:—I hope our much respected music columnist, G. J. Dyke, will reconsider his intention expressed in your letter page, to inquire as to the real color of the "Blue Danube."

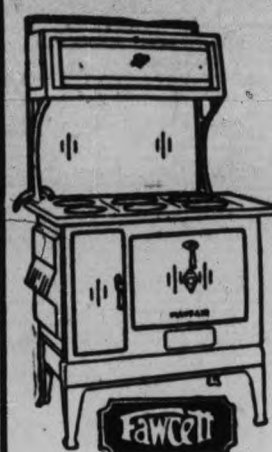

Many idols, these days have been shattered and strewn by a too close scrutiny into, what we call, reality. Personally, I hope that any romantic illusion regarding the far away and mighty Danube, may never be dispelled and that we shall continue in beliefs, "a la Strauss, particularly and phonetically delightful."

"Stay yet illusion stay a while, Our youthful fancy will be guile."

Although this letter isn't very heavy, nevertheless it is written with a hope that it may, at least, cause a momentary distraction from that brain wracking henegg problem.

Sidney, B.C.

DAVID SPENCER LIMITED

Better English

1. What is wrong with this sentence? "It was my sister, Jane, you saw at the party."
2. What is the correct pronunciation of "mattress"?
3. Which one of these words is misspelled? Transcendent, tranquillity, trapeze.

4. What does the word "formula" mean?
5. What is a word beginning with dep that means "to lessen the worth of"?
Answers
1. Say, "It was my sister, Jane, whom you saw at the party." 2. Pronounce the e as in less, not

mat-rus. 3. Trapeze. 4. To express as in a formula; state clearly. "Some speeches excel in the precision in which they formulate their thoughts." 5. Depreciate.

"I suspect any methods of getting the best of two worlds at the price of one."—Sir Josiah Stamp.

Oak Bay Council Briefs

The Oak Bay Council is taking steps toward the appointment of a juvenile court judge for the municipality. At present, Oak Bay has no means of handling juvenile cases. The council received advice on the matter in a letter from its solicitors yesterday afternoon.

A letter from Fire Chief E. G. Clayards explaining a breakdown of one of the municipality's two recently-acquired pumper trucks through the failure of a piece of shafting was referred to the fire committee, as were the chief's monthly report and letters dealing with the firemen's hours of duty and training. The report showed 17 calls answered during the month of July, with no property loss. The 17 alarms included two small fires in buildings, one started by an overheated stove and the other by a short-circuit.

A draft of a by-law to place minimum building cost restrictions on some 80 lots owned by the municipality was received from the municipal solicitors and referred to the council as a committee of the whole for consideration. The minimums are \$3,000 and \$3,500 for certain streets in the area between Cranmore Road and the Uplands.

Very satisfactory progress on the extensive road rebuilding program being carried on under the local improvement plan in the Cavendish Avenue-Uplands area was reported to the council by A. S. G. Musgrave, municipal engineer. The program, he said, had given employment to 17 Oak Bay residents who would otherwise have been jobless, all materials had been purchased locally and the haulage work was being done by local men.

A satisfactory year was reported by Dr. W. P. Walker, municipal medical health officer, in his annual statement covering the period from July, 1937, to June, 1938. During the year, he said, Oak Bay had been completely free of smallpox, diphtheria, cerebrospinal fever, poliomyelitis, undulant fever and typhoid. The report noted a sudden drop in the incidence of chicken pox, measles and mumps which had reached epidemic proportions in the previous year.

Two amendments to the Municipal Act and one to the Sheep Protection Act were put before the council by R. F. Blandy, municipal clerk, for submission to the forthcoming convention of the Union of British Columbia Municipalities at Nelson. The amendments would empower municipalities to make grants to chambers of commerce or boards of trade, instead of only to bodies diffusing information about the municipality; add signs and advertisements to the list of billboards, hoardings and posters over which the municipalities have control, and remove all liability on the part of the municipalities for damage to poultry.

The municipal engineer was empowered to build a concrete wall on Beach Drive, near the Oak Bay boathouse, at a point where the collapse of the fence has made a hazard.

The council gave its approval to a subdivision plan involving three lots on Victoria Avenue, near Beach Drive.

Seventeen Judges For Fall Fair

Twelve more judges have been appointed to the staff of adjudicators for the Fall Fair, to be held at the Willows from September 10 to 17, it was announced yesterday by W. H. Mearns, secretary of the B.C. Agricultural Association. With the five judges recently appointed for the cattle section, this now completes the list of judges for livestock and animal husbandry, and brings the total to 17 judges in all for this department of the exhibition.

Adjudicating the horse show will be Dr. M. Sparrow of Steveston. Handling the heavy horse entries and the four and six-horse team competitions will be William Shepherd, also of Steveston. The sheep will be judged by Professor H. M. King of the University of British Columbia, while the swine will be judged by J. Shannon of Cloverdale, B.C.

Handling the boys' and girls' livestock and other competitions will be R. G. Sutton, district agriculturist in New Westminster; T. G. Stewart, livestock promoter with the Dominion Department of Agriculture, and R. Rendle of Victoria.

T. Pearce of Victoria will judge the goats. Poultry will be adjudicated by Charles E. Clements of Cashmere, Wash., and Charles Good of Victoria. W. M. Hagger, Dominion egg inspector of Victoria, will judge the eggs in the poultry section, and J. Thomas of Vancouver will judge the rabbits.

Bird's-eye pattern of maple is the result of buds forming under the bark, and unable to break through.

White Couple Will Adopt Chinese Baby

REDWOOD CITY, Calif. (AP)—Adoption of Rowena Chan, three-year-old Chinese, by Mr. and Mrs. Paul Buttenweiser of Menlo Park, was approved yesterday by Superior Judge Maxwell McNutt, despite the protest of the state department of Social Welfare on racial grounds.

The child's parents, Mr. and Mrs. Harold Chan, consenting to the adoption, told the court they had made arrangements to go to China to join in the war with Japan, Mrs. Chan as a nurse and Chan as a soldier.

"We met the Chans by pure chance through mutual friends," Buttenweiser said. "We love the child."

Enduring Appreciation

I.O.D.E. to Give Additional Bursaries

To Spend \$1,200 Next Year Aiding Veterans' Children

Three new bursary holders, all children of returned veterans, were named at a meeting of the educational secretaries of the I.O.D.E. primary chapters held yesterday afternoon at the headquarters, Union Building. Mrs. F. F. Beckett, municipal educational secretary, presided, and all the primary chapters of the city were represented.

With the award announced yesterday, the chapters are now giving 12 bursaries to Victoria students. The bursaries range in value from \$50 to \$100 a year and are designed to assist students right through the High School course. It was arranged that the nine already holding bursaries should be given continued assistance, these students attending Esquimalt, Mount View, Oak Bay and Victoria High Schools.

Of the three new bursary holders, one is a brilliant musical student who is working for her matriculation; another is specializing in home economics and the third is a boy at Victoria High School. Altogether the sum of approximately \$1,200 will be spent next year in assisting students with their education.

The primary chapters all contribute to this fund, and have taken such keen interest in the progress of the bursary holders that many of them have been "adopted" by the chapters and given great help apart from the regular bursary.

TEACHERS DEBATE SALARY LEVELS

WINNIPEG (CP)—Discussion of low salaries received by teachers in rural districts was the feature topic of yesterday's session of the 17th annual Canadian Teachers' Federation convention here.

Saskatchewan and Manitoba paid lowest salaries in Canada, it was revealed, no province rivaling the \$100 yearly salary paid one Saskatchewan teacher nor the \$200 annual fee received by some Manitobans.

Alberta and British Columbia reported best salaries. Necessity for provincial governments to increase their grants was stressed by several speakers.

Newspapers Seen As Stabilizers

VANCOUVER (CP)—News papers are the front line of defence against radical social changes in the world today, Harry L. Gage, vice-president of the Mergenthaler Linotype Company, said at yesterday's session of the Canadian Weekly Newspaper Association convention here.

Mr. Gage praised the stand of the Edmonton Journal against "forces working against the better interests of newspapers," and said:

"We are very proud of and keenly admire the courageous stand of the publisher who stood out against these forces."

CHANGES IN STYLE
Commenting on the changing editorial style of weekly newspapers in the United States and Canada, the speaker said the tersely written story seemed to be making for a better newspaper.

He paid tribute to the people on the prairies, who have come through trying years in the drought areas.

"The stamina, backbone and spirit of publishers as well as farmers and business men in those areas is amazing," he said. "We have there a good sound basis of hope for the future."

A special meeting of the Sir James and Lady Douglas Chapter, I.O.D.E., will be held on Tuesday afternoon at headquarters at 2.30.

BLACKHEADS

Blackheads go quickly by a simple method that just dissolves them. Get two ounces of peroxide powder from your druggist, rub this with a hot, wet cloth gently over the blackheads—and you will wonder where they have gone. Have a Hollywood complexion.

Duncan Girl Wed Last Night

Winnifred Hargin Is Bride of Reginald Blake

In a color scheme of pink and white, and a bridal arch beneath which the wedding party stood, the United Church, Duncan, presented a pretty setting for the marriage of Mr. and Mrs. W. R. Hargin, Duncan, and Reginald A. Blake, second son of Mr. and Mrs. F. C. Blake, Metehosin, last evening at 8. Rev. W. F. Burns performed the ceremony, and Mr. P. R. Dobson was at the organ.

The bride, who was given in marriage by her father, wore a lovely floor-length gown of white satin, form-fitting, buttoned at back, and an Elizabethan collar. Her embroidered net veil was worn beneath a wreath of orange blossoms. Her bouquet was of Ophelia roses, carnations and maidenhair fern.

Mrs. George Musclevite, of Luxton, sister of the groom, was matron of honor, wearing a dress of daffodil yellow net, picture hat to match and carrying a bouquet of carnations. Miss Ina Clark was bridesmaid, wearing a pretty dress of green net over silk, white picture hat and carried a bouquet of carnations. Mr. Edgar Blake, the groom's brother, was best man, and Leslie Blake and Edward Lee, acted as ushers.

After the ceremony, a reception was held at the home of the bride's parents, where the decorations again were in pink and white. The three-tier wedding cake centred the table, which was covered with a lace cloth, and arranged with silver vases of pink and white sweet peas.

Mrs. Hargin and Mrs. Blake received the guests, the former wearing a gown of figured brown sheer, with matching hat, and the latter in figured navy blue silk crepe, with white hat, both wearing corsage bouquets of gladioli.

Mr. and Mrs. Reginald Blake left later for a honeymoon in Vancouver and the Sound cities, the bride wearing a suit of white uncrushable linen, topper coat of rose beige flannel tweed, and a white hat trimmed with flowers to tone with the coat. On their return they will reside in Victoria.

Among the out-of-town guests were Mr. and Mrs. Roy Hargin, Mr. Stanley Clayton, Unity, Sask.; Mr. M. Peterson, Arlington, Wash.; Mrs. L. Harrigan, Seattle; Mrs. W. Harrigan, Cumberland; Mr. and Mrs. C. Nelson, Hoquiam, Wash.; Mr. and Mrs. M. Nelson, Henribourg, Sask.; Mr. and Mrs. F. Taylor, Keatings; Mr. and Mrs. F. T. Blake, Mr. and Mrs. C. Walker, Mr. and Mrs. C. Rideley, Mr. and Mrs. C. E. Whitney, Griffiths, Metehosin; Mr. and Mrs. C. Musclevite, Misses Evelyn and Doris Musclevite, Luxton; Mr. E. Finland, M.P.P., and Mrs. Finland, Esquimalt; Mr. and Mrs. J. McKnight, Goldstream; Mr. and Mrs. T. Marcham, Mrs. J. Murray, Miss L. Ainsworth and Miss I. Clark, Victoria.

No Women Allowed In This Kitchen

Kitchens are not only built. Occasionally they are launched. In that case, they are called galleys. One of the trimmest, neatest and most modern kitchens, owned in fact by the Dominion of Canada, has just been launched in the St. Lawrence at Lauzon, Quebec.

It has working surfaces of Monel, built-in refrigeration, and cupboard space which does not waste a square inch. For any housewife, it is a striking demonstration of efficiency and economy in space.

But no housewife will ever preside over its gleaming, silvery sink. Women do not enter it at all. It is the gallery of the cruiser "French," operating in the Preventive Service of the Royal Canadian Mounted Police. Sleek, tiny beside the huge liners past which she flits in Canadian coastal waters, the "French" carries a crew of "mounties," equipped to stay at sea for days at a time if duty makes it necessary, complete even to the shower, also of Monel, tucked into a corner approximately the size of a telephone booth.

Civil Service Tennis Club Dance Soon

Plans are being made by the Civil Service Tennis Club to hold its annual dance at the Uplands Golf Club on Friday evening, August 19th. Len Acres' orchestra will supply the music. During the evening cups will be presented to the winners of the American handicap tournament and the open tournament recently held at the club courts. Tickets for the dance may be secured from any member of the committee.

Mr. and Mrs. Jack Girardau, the former Lois Bell, are shown with their attendants, Miss Evelyn Bell, sister of the bride, and Mr. Jack Summers (left), after the quiet ceremony which united them in marriage recently. They are residing at Four-mile Hill, Island Highway.

Society

His Honor the Lieutenant-Governor and Mrs. E. W. Hamber, who have been on a holiday cruise in their yacht Vencedor and filling a number of private engagements on the mainland, are expected back at Government House on Monday.

Mrs. Greenshaw has left for her home in Vancouver after visiting Mrs. R. Randall, Quadra Street, for the last month.

Mrs. Norman Turner, 54 Howe Street, has had as her guests, her brother and sister-in-law, Mr. and Mrs. C. E. Wood of Giant, California.

Mrs. J. J. McKenzie and small son, Bruce, of Victoria are holidaying at Kamloops as the guests of her brother-in-law and sister, Mr. and Mrs. Ronald White.

Mrs. Herbert J. Peacey of Cloverdale and her daughter, Miss Eva Peacey, have returned to the mainland after a short visit with Mr. and Mrs. J. A. Peacey, Fairfield Road.

Mr. and Mrs. W. F. Bridge, 221 Robertson Street, will celebrate their 25th wedding anniversary, on Friday, August 19, and will be at home to their friends from 3 till 5 and from 8 till 10 p.m.

Mr. and Mrs. Leslie A. Gane, 1126 Dallas Road, have returned home after spending some months in England visiting relatives and friends at their former home in Bristol.

Mr. and Mrs. Leon J. Lambert of Manila, who have been on their annual visit to Victoria for the last few months, guests at the Empress Hotel, left yesterday for California, where they will spend some time.

Mrs. Robert A. Foulis and her son, Robin, who have been visiting her parents, Rev. J. S. Patterson and Mrs. Patterson, Quadra Street, and with Mr. Foulis's parents, Mr. and Mrs. R. Foulis, Lamson Street, will leave tomorrow to join her husband in New Westminster, where they will make their home.

Mr. and Mrs. Jack Elliott of Seattle have left after visiting Mr. and Mrs. G. B. Elliott, Fort Street, for a short time. They were accompanied home by their daughter, Miss Jacqueline Elliott, who has been spending the summer in Victoria with her grandmother, Mrs. J. E. Elliott, and her uncle and aunt, Mr. and Mrs. G. B. Elliott, who have also staying with them their niece, Miss Betty Ferguson of Seattle.

Miss Dorothy Basanta, who is to become the bride of Mr. John H. Allison tomorrow, was presented with a case of Rogers flat silver in the Lovelace pattern at an interesting little ceremony in the Department of Public Works at the Parliament Buildings yesterday afternoon. Hon. Frank M. MacPherson, Minister of Public Works, made the presentation, conveying the felicitations and good wishes of himself and her colleagues to the bride-to-be.

Prior to the little dance given by Miss Myfanwy Spencer at "Spencerwood" last night, Miss Phyllis Pooley entertained at a dinner party in honor of her parents, Mr. and Mrs. R. H. Pooley, Old Esquimalt Road, the other guests including Mr. and Mrs. C. W. Stanbury, Mr. and Mrs. R. H. Tye, Miss Josephine Rithet, Miss Ivy Brown, Mr. Bob Driscoll, Mr. Will Jamieson (Pennsylvania), and Mr. W. Grotian, who is visiting here from England.

Mr. and Mrs. Harold O'Neill Hayes of San Francisco have left for the south after visiting Mr. and Mrs. F. G. Aldous, "Willowcove," Ten Mile Point.

Mrs. Ben Dyer, who has been spending the past two weeks with her mother, Mrs. M. Gillan, Shelbourne Street, has returned to her home in Duncan with her little daughter, Althea Dawn.

Capt. and Mrs. Massey Goodlen will entertain at a small party this evening, in their home "Knole," Vancouver, when guests of honor will be Vice-Admiral Sir Sidney Meyrick and Lady Meyrick, and officers of the flagship H.M.S. York. Dancing aboard the ship will be later enjoyed.

Mr. and Mrs. Harold Blackett of Hamilton, Ontario, have arrived on a visit to Mr. Blackett's father, Mr. F. J. Blackett, 2761 Foul Bay Road. Mr. Blackett is with the Westinghouse Company, and his wife is the daughter of Mr. S. Pratt Kuhn, head of the well-known advertising agency.

Miss Dorothy Basanta was the recipient of many lovely gifts at a miscellaneous shower held at the home of Miss Roberta Peden, Oscar Street, on Tuesday evening. Upon her arrival the bride-to-be received a fragrant corsage bouquet of sweet peas, and later was presented by little Beverly Peden with a hat box, beautifully decorated in pink and blue and containing the many gifts. The supper table was centred with a crystal bowl of blue and white flowers, flanked with matching crystal candlesticks holding tall yellow tapers. During the evening Miss Basanta also was presented with a set of eight hand-some Belgian glass water goblets, the joint gift of her bridge club, the guests included: Mrs. J. Cunningham, Mrs. T. Ricardo, Mrs. J. Cullingford, Mrs. G. Kaiser, Mrs. S. Fell, Mrs. A. Peden and the Misses Ruth Windau, Mary Smith, Eugenie Doherty, Irene and Kay White, Patricia McDonald and Peggy Wharton.

A pleasant afternoon picnic was held on Wednesday in Beacon Hill Park, where 20 friends and neighbors gathered to celebrate the 80th birthday of Mrs. Emily McCrie of 1032 McClure Street. The tables were decorated with roses and sweet peas and a delicious birthday cake. When the guest of honor arrived she was greeted with "Happy Birthday to You," and expressed her delight and surprise appropriately. After the repast an impromptu program was arranged, consisting of songs, readings and recitations by different members of the group. Each lady was called upon to give a short sketch of her life in Ontario, on the prairies and in Victoria. Many interesting and humorous stories were told, but the high lights were reached when Mrs. McCrie told of her life in Durham, Ontario, of the old stone house, best-beloved of all her homes, where she was born, spent a happy childhood and was married before leaving for Kyle, Sask.; of her 10 children, four sons and six daughters, all living; 34 grandchildren and 10 great grandchildren, and last, but not least, of her many kind friends and neighbors. She thanked her friends again for this pleasant surprise, and expressed her appreciation of their kindness. The afternoon closed with "Auld Lang Syne."

Mrs. J. E. Semmes, "Robinwood," Uplands, entertained at tea yesterday afternoon in honor of Mrs. D. F. Boyden, Baltimore, Md., and Mrs. E. H. Maxwell, New York, who are spending the summer in Victoria, having leased Princess Chikhmatoff's house on Runnymede Avenue.

Mrs. A. H. Davies and Miss Audrey Barnett were joint hostesses last night at a trousseau shower in honor of Miss Peggy Pidcock, who is to be married shortly, the affair being arranged at the home of Mrs. Davies, 2123 McNeil Avenue. The rooms were attractively decorated with varicolored gladioli, and the supper table was centred with salpiglossis in autumn shades. A corsage of pink carnations and mauve sweet peas was presented to Miss Pidcock by Miss Gloria Davies, who later presented the many lovely gifts in a decorated chest. The guests included: Mrs. W. E. Pidcock, Mrs. A. C. Butchart, Misses Mae and Margaret Thomson, Ruby Lawrence, Sheila Sangster, Barbara Paitson, Marjorie Telford, Phyllis Winterbottom, Laura Catterall, Dorothy Freeman, Nan Eve, Muriel Barnett, Peggy Pidcock and Gloria Davies.

Mrs. E. Exton was hostess at a miscellaneous shower last night at her home, 1770 Lansdowne Avenue, in honor of her niece, Miss Vera Masters, who is to be married this evening to Mr. Harry Walker. On her arrival the guest of honor was presented with a corsage bouquet of gladioli and bridal roses. The many lovely gifts were concealed in a large decorated hat box. Games were played during the evening and a buffet supper served. Assisting the hostess were Mrs. A. Dunderdale, Miss E. Morris and Miss M. Masters. The guests included: Mr. and Mrs. A. Dunderdale, Mr. and Mrs. J. Cartwright, Mr. and Mrs. F. Dodge, Mr. and Mrs. J. Masters, Mr. and Mrs. D. Abbott, Mr. and Mrs. E. Exton, Mrs. A. Dunderdale, Sr., Mrs. G. Massick, Mrs. M. Walker, Mrs. L. Abbott, Mrs. W. McCulloch, Mrs. R. Milliken, Messrs. H. Walker and J. D. Davies, and the Misses Vera Masters, Carol Kennedy, Eileen Morris and Marguerite Masters and Master Arnold Morris.

Modern Etiquette

By ROBERTA LEE

1. Should a bride's gifts to her bridesmaids be faddish or something that will last?
 2. Is it correct to inquire from a bride concerning her silver pattern or should you surprise her with your choice?
 3. Is it now customary for a bride to have her silver marked with the initial of her husband-to-be's last name?
 4. After a wedding, should the ushers and best man have a place in the receiving line?
 5. At a wedding reception, does the bride stand at her husband's left or right side?
- What would you do if—
You received a damaged gift which had been sent out directly from the store—
(a) Notify the donor?
(b) Notify the store from which it came?
(c) Accept it and say nothing?

ANSWERS

1. The latter.
 2. Ask her by all means!
 3. Yes.
 4. No.
 5. Right.
- Best "What Would You Do" solution—(b).

Add one "for the pot"

Warm a crockery tea-pot
Put in one teaspoonful of tea
for each person and one "for the pot"

HAND-TIMMS

At St. John's Church Rectory on Wednesday afternoon, Rev. Canon F. A. P. Chadwick united in marriage Jessie Agnes Timms and Sanford Herbert Hand, son of Mr. Robert Hand, Gordon Head Road, and the late Mrs. Hand.

The bride wore a cream-colored suit with hat to match, and a corsage bouquet of pink carnations and sweet peas. Mr. and Mrs. Herbert Cutt were the only attendants. Mrs. Cutt wearing a blue suit and a corsage bouquet of pink carnations. Following the ceremony, a reception was held at the home of Mr. Hand, only intimate friends attending. The dining-room had been prettily decorated with gladioli and gypsophila by the groom's sister, Miss Ethel Hand.

Mr. and Mrs. Hand will reside in Seattle, where the bridegroom, a former employee of the Victoria Daily Times, is employed by the Seattle Times.

Nell Gwynne's Portrait Found

A certain Mr. Letts recently purchased an eight-room, two and a half story house opposite Windsor Castle and brought workmen in to modernize it, report London newspapers. It had been in the possession of successive caretakers for a couple of centuries. It needed bathrooms, electric lighting, and new floors to make it habitable.

The records showed that it had been built by Charles II for Nell Gwynne.

At the age of 15, Nell was selling oranges outside the Drury Lane Theatre, London, where she later became a famous actress. She attracted the attention of an officer of the King's Guards, who set her up in housekeeping. This was her first step on the stairs that led to Whitehall and Windsor.

The other day some of the workmen in preparing for the electrical installation discovered imbedded in the brick wall behind some oak panelling a portrait of Nell painted on glass and in an excellent state of preservation. It showed the mistress of Charles II in her costume as "The Orange Girl" and measured eight inches by six. It has been sent to the British Museum for identification.

Scottish Brooches For Quintuplets

QUEBEC (CP)—Five little silver brooches, presents for the Dionne quintuplets of Callander, Ont., reached Canada yesterday from the burgh of Callander, Scotland. With the brooches, decorated with the Callander coat-of-arms, came an address from the Scottish burgh's provost and officials.

Bouncing Babies

CHALE, Isle of Wight—A 15-pound baby was born here to Mrs. Sidney Butchers. A New York woman, however, claims the record with a 22-pound child in 1935.

Hitch-hiker Finds West Kinder Than East

Girl in Vancouver After Long Trek From Montreal

VANCOUVER (CP)—Nineteen-year-old Gwen Evans of Montreal, who hitch-hiked across Canada on \$30, is going to make her home in the west, "where people are more hospitable."

Three weeks ago Gwen, a clerk in a dress shop, left Montreal with \$30 and a desire to see Vancouver. Yesterday, with 25c left, she reached her goal.

Gwen said she had a few adventures on the way, including seven proposals of marriage, a ride through a tunnel on the log of a box car and a narrow escape from being hit by an automobile.

"I've never met so many nice people in all my life. The farther west you come the more hospitable people are," she told interviewers.

"Some people were too kind," she added. "They used to think I was hungry, so they practically forced food on me."

Gwen said the future didn't bother her. She thinks that if anyone wants work they will find it.

"I want to stay in Vancouver, so I'll do anything—even housework. There is nothing to be ashamed of in that."

London Short of Mannequins At Present

Films and Cabarets Take Glamour Girls; Learn to Walk Well

LONDON—London is short of mannequins. The reason is that films, variety shows, and cabarets have absorbed a larger number of "glamour girls" recently than ever before.

"But it is not really the so-called 'glamour girls' that we want," the manager of one of the largest mannequin academies in London said. "The girls we are really short of are girls of good families who are well educated and well bred."

"These girls make the best mannequins because they need far less training than others and possess that poise and personality which are the mannequin's most useful attributes."

"The trouble is that we have no way of making mannequin work as a career known to the public. Advertisements in the papers attract the wrong type of girl and head-mistresses in school raise their hands in horror if we suggest that some of their pupils should become mannequins when they leave. But given certain attributes, practically any girl can become a successful mannequin after a few weeks' training," the manager said.

MUST WALK WELL

The main thing a girl needs is height—she should be at least 5 feet 6 inches tall—and she must not be too thin. The best measurements are: Bust 34 inches, hips 37 inches, or larger, even as large as 44 or 46 inches. And she must have long legs, because girls with long legs, particularly those with length from the knee down, always walk better. Short-legged people very seldom walk well.

Department plays the largest part in the training of mannequins. At the school, girls in trousers, shorts, or wide skirts were walking up and down a set of wide, shallow steps; standing, turning and being continually corrected for awkward movements which the quick eye of the expert teacher easily detected.

In another room girls were doing the same thing to music. "We teach them to walk properly first," the manager explained, "and then when they satisfy the teacher they have to do it to music."

"This always sets them back

These two girls are in a beauty parlor tableau in a carnival procession in Wembley, England. Despite a heavy rain large crowds turned out to see these bathing girls—and, incidentally, other floats in the parade.

for a while because it is most important that they should not keep time to the music and there is music at all the big dress shows. If they keep time they immediately lose their grace of movement."

After an intensive course, lasting about six weeks and costing 10 guineas, the girls are ready for their job. There are several kinds of mannequin work. There is the permanent job, when girls get taken on by shops at a given weekly salary, usually about £2 10s to start with but often rising to £4 or £5.

Then there are the jobs which only last two or three days, which mean taking part in the big dress shows given by the well-known houses or by wholesale firms both in London, in the suburbs, or in the provinces. Sometimes girls are offered jobs in Paris when firms give one or two-day shows over there. All traveling expenses are paid, of course, and liberal allowances are given besides the ordinary salary, which may be three or four guineas for the one show.

Runciman's Great Task

WINNIPEG (CP) — Viscount Finlay of Nairn foresaw brief respite in European tension when interviewed as he passed through Winnipeg yesterday en route to Vancouver for the Canadian Bar Association convention. He is a judge of the high court of justice, king's bench division, in England. He said the result of Viscount Runciman's inquiry into the Sudeten German problem in Czechoslovakia might provide discussion and negotiation which might reach a permanent understanding.

Viscount Runciman's task in Czechoslovakia, he said, was one of the most difficult ever undertaken in international negotiation.

Lost House—Married
WAKEFIELD, Eng.—Decision of authorities to demolish his cottage prompted Herbert Walters, 77, to abandon bachelorhood. He proposed—and was accepted—by Mrs. Ann Ansell, 94. They plan to live on their old age pensions.

Women As Town Planning Experts

World Survey Shows Wide Variety Of Housing Schemes

MELBOURNE (CP) — This Australian city of 1,000,000 population remains one of the few large cities in the world which has not a properly constituted town-planning authority, the world survey made by Miss Denby points out.

In Holland, as in Great Britain, considerable importance is attached to effective housing inspection and to the enforcement of regulations concerning the upkeep of dwellings.

The Amsterdam housing department employs 15 specially-trained women estate managers who do social work and carry out inspections. In Sweden, too, the inspection of dwellings for structural defects is done by a specially-qualified staff of women.

In Stockholm, Sweden, the health department maintains an isolation home containing 40 beds, which is used mainly when dwellings need fumigating. And in Amsterdam a special block of flats is used for the education of people who have proved to be unsatisfactory tenants.

In Sweden there has been difficulty in inducing the people to accept more roomy houses, because the climate and long habit have made them more comfortable when crowded into small rooms. Even in the homes of professional people it is common to see a bed in the living-room.

In Rome, Florence and Venice, in special municipally-owned "hotels" cheap accommodation is provided for families which are considered unsatisfactory as tenants for new dwellings.

The only form of bath provided in many of the continental housing schemes is a shower bath, the public bathing pools being regarded as meeting the general needs. As for equipment, there seems to be a dislike, in European countries, of the small workshop type of kitchen, the kitchen-living room being preferred.

Common laundries, for the use of the tenants of group of flats, are not in favor, probably because the poorer women shrink from the comparison of their clothing with that of the women who are better provided.

The London report of Miss Denby contrasts the cheerful

cleanliness of the German tiled stove or the enamelled stoves, with the black-leaded iron stoves common in England. She makes a strong plea for the social amenities supplied by well-planned housing schemes, "places for exercise, free companionship and family enjoyment. . . . Once we were known as 'Merrie England.' If there is a crime against the poor to be expiated, it is the theft of gaiety."

Pension for Oil Men

SAN FRANCISCO—S. Belthier, president of Shell Oil Company, today announced the adoption of a retirement pension plan the provisions of which will extend to all of the 27,500 Shell employees in the United States and Canada. The plan which is designed to round out a broad program of social benefits already in force will date back to January 1, 1938. The pensions will be provided by the companies without contribution by employees. Normal retirement ages are defined as 60 years for men and 55 years for women, but retirement at these ages is not compulsory.

Moody Institute Prints Victoria Pastor's Article

CHICAGO — The Rev. J. R. Rowell, Th.D., of "Wopdhill", Victoria, B.C., is the author of an interesting article on "The God of the Impossible," which appears in the August issue of the Moody Monthly, published here by the Moody Bible Institute. Dr. Rowell's message is directed to stimulating courage and faith in readers who are in trying circumstances.

The last wild bison in Pennsylvania was killed in the year 1800.

Cleveland Is Bogged Down

Sports Mirror

By PETE SALLAWAY

THEY SAY Charters "Chuck" Cunningham is hanging up his spikes.

They deserve a rest, those shoes that have trod the cinders and turf of British Columbia as well as Washington and eastern Canada tracks for the last 10 or 15 years. He's had a good day, a day that saw him come up from a shy, gangling youngster with a burning desire to run, to the spot of prominence as the province's leading half-miler.

There was a big change in Cunningham the runner, but little alteration in Cunningham the youth and young man. He met them and beat most of them in British Columbia over the half-mile route in the last decade or so. And when some were more fleet of foot, he gave them their praise, bestowed credit, were credit was due, except upon himself.

They are running faster halves than Chuck now. But they can teach him nothing in sportsman-ship. A time there was when Tommy Herd, Vancouver, and Chuck used to run their hearts out in British Columbia championship half-mile duels. Tommy came and went and Chuck stayed on. He worked hard. No training grind was too aggravating if it put him in shape. A nice pace runner, he kept pounding around in practice until he had developed a closing sprint none thought he could attain. He looked finely drawn and he ran himself out in virtually all his races, but he never cracked and quit.

What he had, he gave to the race and what he learned through experience, he gave to the youngsters of Victoria in assistant coaching. He has won innumerable British Columbia medals and he has shown well in national competition. But the greatest prize he ever achieved came from his team mates on the Flying Y squad.

When that team lost two of its greatest performers, "Jud" and Frank Aldous in a boat mishap off James Island, the boys clubbed together to buy a memorial award. They secured a cup and set it up for presentation annually to the member of the Y.M.C.A. track and field team that most nearly approached the ideal of amateur sportsmanship—a boy who held the game above the prize, a boy who counted the team before himself and who gave the game lustre through the honesty of his performance. Chuck Cunningham received the cup the first year it was presented.

He went on next year, when the experts had finished predicting the end of the road for his running, to run better than ever. Yes, he made a nice job of his running. And if he never draws on a spiked shoe again, he'll be able to look back over a career that has been a decoration to provincial track and field activities.

Back from vacation comes Owen Bentley, sprinter of the Y.M.C.A., with the remarkable story of how he nearly drowned. Owen, only a fair swimmer at best, ploughed his way out to a raft at a holiday spot. He rested on the float and looked with some alarm at the shoreline. On the beach were a couple of youngsters playing quoits.

The trackster dived in, intent on making the beach. A quarter of the way to his objective, he lost heart and returned to the float. He tried again. Half way in he swallowed water, lost his balance and started to bob up and down. Finally he sank. By the merest chance the quoit-playing youngsters looked around and missed him. They saw a disturbance in the water and raced along the beach to find a boy pushing the Padres into the water. Heaving it in, they rowed to a spot showing air bubbles and found Bentley lying on the sand about seven feet down. With an oar they raised him to the surface, and, getting him to shore, drained him of quarts of water.

Owen plans to devote a little more time to swimming in the future.

Taking it by and large, those Cleveland pitchers certainly picked a fine time to fold up.

New York Yankees, now 6½ games in front of the American League pack, will tell you the Tribe elbows couldn't have chosen a better spot to collapse like so much wildcat oil stock and just about toss their way out of the pennant picture.

Young Bobby Feller began getting kicked around and lost a crucial one to the New York Yankees. Next Johnny Allen's sore arm couldn't take it any longer. Then Mel Harder's comeback went back into the mothballs.

And finally, Oscar Vitt sent young Al Milnar and old Willis Hudlin to the wars yesterday against the staggering St. Louis Browns, and the same thing happened to them.

Buck Newsome, opposing Milnar, tossed a five-hitter, and the Browns nipped the Tribe 8 to 7. Then Les Tietje, whose last well-pitched game was beyond the memory of the oldest inhabitant, hurled a six-hitter, and Gabby Street's lads clicked for an 8 to 2 decision.

Since the Yankees were virtually handed a 9 to 6 victory by Washington Senators, this twin setback dropped the Tribe a game and a half farther back in the race. The Yanks collected only five hits off three Senators' pitchers, but bases on balls, enemy errors aside, and Joe DiMaggio's three-run homer were enough to give them the decision.

SIX LOSE CHANCE

Boston Red Sox, who might have climbed into second place as a result, dropped a set to the lovely Philadelphia Athletics. Lefty Grove started against Connie Mack's infants yesterday and not only lost a 5 to 3 decision, but learned that his arm, which he thought had recovered, is once again "dead."

With such developments as these, together with Monte Stratton's four-hitter that gave Chicago White Sox a 13 to 1 triumph over Detroit Tigers, there wasn't much action left for the National League yesterday.

Only one game got by old man weather. Cincinnati Reds nipped Chicago Cubs 8 to 7. Ernie Lombardi whacked a homer in the 14th inning to break up the ball game.

COAST LEAGUE

The Los Angeles Angels, fighting to hang onto first place in the Coast Baseball League with a crippled pitching staff, waved a hunk of money and a player at the cellar Oakland A's to day for help and got it.

The Angels were lucky to beat Hollywood Stars, 2 to 0, last night after being limited to three scattered hits by Stu Bolen, but after the game president Dave Fleming of the Los Angeles club announced he had exchanged Marvin Gudat, veteran outfielder, and some cold cash for Dwight Van Fleet, Oakland pitcher.

Van Fleet left for Los Angeles last night after pitching two innings as a relief hurler for the Oaks, who were beaten, 7 to 3, by San Diego Padres. The victory pushed the Padres into third place as San Francisco Seals, unable to overcome a four-run lead taken by Seattle in the first inning, lost 6 to 4.

Second place Sacramento remained right at the Angels' heels by blasting out 16 hits to (Turn to Page 12, Col. 1)

Victoria Daily Times

Bays Outscore Duncan 14 to 7

Performance of Goalie McKim Highlight of Intercity Boxla

While A. McKim did a man's size job of guarding his goal from the raids of the Duncan side, Coach Ted Menzies' James Bay Intermediate box lacrosse squad found the opposing goaltender easier to beat, and as a result, fired in two goals to every one the up-land aggregation got to emerge with a 14 to 7 victory in an intercity tussle at the Athletic Park last evening.

Two hundred followers of the sport were on hand for the engagement and saw the local blue-shirts establish a five-goal lead in the opening 15 minutes of play and stay on the top end of the score for the rest of the evening. Although Duncan was outplayed in the first two quarters they pepped things up considerably and made a real battle of it for the last half hour. The Bays had an eight-goal margin at the half-way mark.

Brynjolfsson and Popham refereed.

Teams and scorers follow: James Bay—A. McKim, W. Allan, R. Winterburn, R. Clark, B. Pridham, A. Cullin, 2, "Red" Mason, 1, E. McKim, 1, F. Sargent, J. Sargent, 2, D. Turner, 1, C. Thomas, 1, R. Williams and H. Bischofberger. Total 14.

CITY JUNIOR SOFTBALL CHAMPIONS—Here is seen the Harris Cyclists Softball Club, which won the junior championship in the Victoria and District Commercial Softball League. The Cyclists defeated Lake Hill Commercial two straight games in the final series. The club had a season's record of 27 victories against one defeat. They will meet the winner of the Courtenay-Ladysmith series in the island playoffs. Those in the above picture, from left to right, are: Back row, L. Fuller, H. Jewsbury, A. Barnes, N. Carter, J. Sargent; front row, B. Barr, J. Bryant, captain, Bob Dymond, manager, Ernest Harris, sponsor, E. Perkins, coach, G. Perkins and E. Ball. The little chap sitting on the grass is batboy Corky Bryant. Three players absent when the picture was taken were, C. Uttkie, W. Williams and J. Gardiner.

North Shore Boys Have Confidence

Figure on Win Tonight Over Timmins in Canadian Football Final

WINNIPEG—Timmins Dome Mines and Vancouver North Shore United both are confident of victory in tonight's second game of a best-of-three series for the Dominion football championship. The teams drew 1 to 1 in the opening game here Wednesday.

"They've got a clever team but I think we can beat them," said Mike McManus, high-scoring centre-forward of the western champions. "After the first half the other night we found our bearings and are hoping for the best."

The North Shore club took things easy yesterday, some playing golf, others tennis while a few roamed through stores or took in a movie.

Bill Wolfe and Swede Larson, absent from the opening game because of injured ankles, were feeling better and Wolfe was expected to be in the line-up to night. Larson pulled a ligament in his right ankle in the western final with Winnipeg United Weston and was not expected to participate in the Dome series.

Dome Mines, exponents of close-to-the-carpet attacking methods, also spent a quiet day and were confident their accurate, short-passing game would give them the jump tonight over the British Columbian. No injuries were reported in the camp and they were ready for a supreme effort to lift the honors held last year by Vancouver Johnston Nationals.

Uplands Will Play at Gorge

Golfers from the Gorge Vale and Uplands Club will meet Sunday in an interclub match. The draw for the A-match at the Gorge, with the Uplands players first named, follows:

9.00—Vic Painter and A. G. Craig vs. Fred Painter and Walter Newcombe.

9.05—R. Ford and J. Bacon vs. C. Brynjolfsson and H. Pretty.

9.10—L. J. Hiberson and Ed Cuppige vs. H. H. Allen and Leo Dierman.

9.15—J. R. Hiberson and J. McIlraith vs. Pat Deane-Freeman and J. S. Sangster.

9.20—Joe Barlow and R. D. Van Horn vs. Harold Price and Mike Ott.

9.25—Col. A. F. M. Slater and Gen. G. S. Tuxford vs. G. Pretty and W. Marshall.

9.30—R. V. Hocking and F. W. Goodman vs. D. W. Spence and E. Brachet.

9.35—F. L. Leslie and F. Lewin vs. R. Feden and G. Cartwright.

Postpone Tennis

Bud Hocking announced today that the close of entries for the city tennis championships had been extended to Monday night at 6 instead of tonight, as originally announced. The meet will open next Wednesday instead of tomorrow.

The reasons for the postponement is due to the fact that 15 members of the C.P.R. club will leave for Vancouver tonight to battle in defence of the trophy they won last year from the

Mrs. Gwen Hethey High Scorer in Governor's

Auto Race Meet Tomorrow Night

Plenty of Action Expected at the Langford Speedway

There will be an auto race meet at the Langford Speedway tomorrow night.

Four drivers and their cars will be on hand from Seattle. Jud Taylor, one of the younger topnotch drivers in the Pacific Northwest, will be behind the wheel of car No. 70. Taylor is a favorite in Seattle and Portland racing circles and should go over big here.

Lew McMurty, another favorite who has added plenty of color to local automobile racing performances, will also be turning out, the heat tomorrow night.

Jack Spaulding, well known to Victoria fans, will be driving a new four-wheeled machine which has just been completed. Big things are expected from this boy.

Driving car No. 27, Jimmy Symes will be out with all guns firing. Symes broke the track record at the Evergreen Bowl last Wednesday in Seattle and is rated with the best.

In addition to these speed demons, Jack Taylor's new power wagon, reported as one of the fastest in the city, will be out on its initial run. Bob Wensley will, in all probability, pilot it.

Bert Sutton will be out to hold his own at the wheel of the Jack Smith special, "Silver Streak," and George Allen will be at the wheel of little car No. 15, formerly owned by Jimmie Laird.

"Corky" Thomas, "Digger" Caldwell and "Tarzan" Carson will be the other local boys out for honors. Jerry Vantreight, Nanaimo, is also booked for action.

The meet will get under way at 7.45 with the time trials. There will be a 25-lap main event.

Softballers Play Final

Longshoremen and Camerons Resume Senior A Series This Evening

Manager Jack Paseoe's Camerons softballers will bring all their reserve ball strategy into play this evening when they go gunning for a much-needed victory over the Victoria Longshoremen at the Athletic Park. The millhands have to win tonight to stay in the lower island senior A playoff picture. If the stevedores post a victory—they have won two straight already—it will mean finals to the current series.

The game will start at 6.15.

Big Bill Tesky will get the call from Manager Jim Lackie to do the duties on the pitching mound for the Longshoremen, while "Rosy" McLellan, ace twirler in Camerons camp, will parade to the mound.

Two Ball Games Carded Tomorrow

The Port Townsend Cubs, hustling United States ball nine, will oppose Victoria All-stars in a pair of battles tomorrow at the Athletic Park. The first game will start at 2.30 and the night-cap at 6.15.

The local club will have a strong nine. Sonny Walker will do the heavy work in the afternoon game, and other pitchers who will see action include Ray Maitland, Lloyd Jones, Les McLeod and Lonnie Murray.

BOXING

Grand Rapids, Mich.—Wesley Ramey, 134½, Grand Rapids, outpointed Eddie Brink, 140, Scranton, Pa. (10).

NEW YORK—Earl Johnson, 190, Norway, outpointed Mike Alfano, 190, Brooklyn (8).

Local Woman Shot Has Possible

In Brilliant Form to Top Canada's Crack Marksmen in D.R.A. Classic

CONNAUGHT RIFLE RANGES, South March, Ont. (CP)—Canada's masculine sharpshooters showed deference today to a blond markswoman from British Columbia as Mrs. Gwen Spencer Hethey of Victoria led a parade of 150 of the Dominion's ace shots into the final of the Governor-General's medal competition of the Dominion of Canada Rifle Association.

Around the windswept firing ranges, there was nothing but awe and admiration for the tall western woman's record-equaling feat in leading the qualifying stage of the shoot with a possible score. Only four persons before had gained the possible on the first round, all men. And, by available records, no woman had ever led the sharpshooting brigade before yesterday.

The weather added odds against Mrs. Hethey, too, for a strong northwest wind was raking the firing line. The cool markswoman, judging wind and distance to a nicety, plunked shot after shot into the five-inch circle at 200, 500 and 600 yards for a perfect 105 on 21 bullets.

In all the history of the shoot, that had been done before only by Cadet A. Wismer of England, Lieut.-Col. F. W. Utton of Toronto, Sergt. T. A. Jensen of Innisfail, Alta., and Lieut. C. F. Kennedy of Hilden, N.S.

FINAL SATURDAY

Mrs. Hethey, by her win, led 150 others who will enter the Governor-General's final Saturday. Only 148 of the 150 qualified yesterday and decision will be made today as to who will get the other two places. Thirty-one marksmen were tied with scores of 93.

Match officials will decide today if the shoot-off will be held or whether some other method will be used to determine the winners of the last two places.

Alone in second place in yesterday's qualifying stage was Aircraftman T. W. Gregory of Ottawa, who posted a 103. He scored a possible at the 200 range and a 34, one shot off possible at each of the 500 and 600 ranges.

British Columbia marksmen who qualified for the final, in addition to Mrs. Hethey, follow: Pte. E. Nicholson, Esquimalt, 100; Lieut. C. A. Molecey, Vancouver, 99; Sergt. J. H. Regan, Victoria, 98; Csm. L. C. Willoughby, Vancouver, 98; Lieut. N. Colville, Victoria, 97; Bandsman F. Drysdale, Victoria, 96; Sergt. A. W. Lamb, Vancouver, 96; Sergt. J. Kier, Vancouver, 96; Corp. G. S. Carr, Victoria, 95; Pte. J. F. Hutchins, Victoria, 94; Fusilier I. M. Grant, Vancouver, 94; Pte. H. Torburn, Esquimalt, 94.

Thetis Lake Swim Race Next Sunday

Boys and girls under 16 years of age will again have the opportunity of taking part in a series of swimming races at Thetis Lake sponsored by the Thetis Lake Tea Rooms, on Sunday afternoon at 2.30.

The races will be 75 yards with prizes for the winners. This will be the third in the series at the end of which a cup will be presented for highest points.

D. Campbell and A. J. Campbell will be in charge.

CYCLING PRACTICE

Members of the Victoria Cycling Club are asked to attend a sprint practice to be held tonight at Beacon Hill, starting at 7.

Louis Makes Plans

NEW YORK (AP)—Joe Louis, the heavyweight champion, has just announced he will fight four times in 1939, and it would seem some four fellows are heading for a ring full of trouble.

Louis will box next in Madison Square Garden in January, according to Mike Jacobs' plans. Max Baer—"The New Baer"—is expected to be the opposition on the Pacific Coast in April, with June and September bouts outdoors in New York.

Mike Jacobs, who thinks slightly more of Joe than he does of his right eye, said yesterday the

Victoria Lawn Bowling Star Loses to Williams in Mainland Tourney

VANCOUVER (CP) — When two city bowling greens were flooded yesterday manager Bill Cullin was forced to push competitors in the 16th annual British Columbia lawn bowling tournament to keep the scheduled up to date. The result was that more than 300 games were played off in the various events, and when play ceased last night every competition had been narrowed down so much that today's matches will bring all events down to the finals.

Joe Barton's Nanaimo quartette in the premier rink final meet Pat Campbell's Cedar Cottage quartette in the premier rink final for possession of the Francis Bowser trophy, while Arthur Baker's squad from the coal city will oppose W. S. Young's rink from Oakridge, Cal., for the John Jenkinson memorial silverware.

Joe Wilson of Burnaby went into the Nelson rink final when he defeated Tommy Tevyan's Terminal rink, 26 to 21, in the semifinal. He will meet the winner of the other semifinal, in which Joe Barton of Nanaimo meets Wally Kennur of Vancouver South. Barton downed W. Henderson of the C.P.R. Club, 20 to 16, and Kennur beat J. K. Raphael of West Point Grey, 24 to 22, to reach the semis.

DOUBLES PLAY
Allen and Robertson of the Grandview Club will oppose Peter Trousdale and Dick Adam of Terminal in one Oakland doubles semifinal, while Cram and English of Nanaimo will play Black and Banks of West Vancouver in the other. Cram and English beat Knowles and Thorburn of Ioco, 18 to 17, to reach the semis.

R. L. Williams of North Vancouver downed Alf Marconini of Victoria, 22 to 19, to enter the chambers (champion of champions) semifinals, and will meet Roy Miller of Vancouver South, while Bob Maxwell of Vancouver will play Johnny Gavin of Nanaimo in the other half.

Gavin beat George Farrant of Kerrisdale, 23 to 16, to advance to the last but one round.

CLEVELAND IS BOGGED DOWN
(Continued from Page 11)

beat the Portland Beavers, 11 to 3.

Wayne Sabin Drops Match

Portlander Beaten By Allison in Rye Tennis Tournament

RYE, N.Y. (AP) — Top-seeded Bobby Riggs of Chicago and Alice Marble of Beverly Hills, Calif., continued to show the way in the United States eastern grass courts tennis championships at the Westchester Country Club yesterday.

Wilmer Allison outlasted Wayne Sabin, Portland, Ore., 4-6, 6-1, 12-10. Betsy Grant collapsed twice on the court in winning from Frank Guernsey of Orlando, Fla., United States intercollegiate titleholder, 9-7, 1-6, 6-2.

Riggs played baseline tennis in defeating Gardner Mulloy of Miami, 6-2, 1-6, 6-3, while Gene Mako moved into the bracket opposite Allison by beating Charles Hare of Great Britain, 5-7, 6-1, 6-0.

Joe Hunt and Frank Parker, the Canadian champion, also moved into the round of eight. Hunt scoring easily over George Toley of Coral Gables, Fla., 6-0, 6-3, and Parker nosing out curly-haired Hal Surface, 9-7, 8-6.

Miss Marble was by far the most impressive of the girls, crushing Barbara Winslow, last week's Maidstone victor, 6-1, 6-2.

Racing Results

Lumbermen To Stage Tourney

Annual Golf Competition Scheduled For Colwood Club, August 20

Open to all members and ex-members of the timber and lumbering industry and members of the Dominion or B.C. forestry service, the annual Vancouver Island lumbermen's golf tournament will be held at the Colwood Club, August 20. Play will start at 1.

Trophies to be competed for will include: Simonds Saw Company Cup for the low net score, open to Vancouver Island lumbermen only; Shirley Dietrich-Atkins Co. Cup for the runner-up, open to Vancouver Island Lumbermen only; Royston Cup for the low gross score; B. P. Schwenger Cup for the low net score, open to all competitors; F. C. Dillabough Shield for the low net score, open to all members of the allied industries only. There will be many additional prizes.

No player will be allowed a handicap of over 24. Entries are to be sent to C. C. Warren, 2324 Government Street.

Following the tournament a dinner will be held in the clubhouse.

JAMES ROOSEVELT REVEALS INCOME

Actual Insurance Earnings Only a Fraction of Reported Amounts

NEW YORK—James Roosevelt, son and secretary of the President, today made public in Collier's his income tax returns for the past five years, which have been the subject of wide speculation since the recent publication of reports that his earnings in his insurance business were somewhere between \$250,000 and \$2,000,000 a year.

The United States Treasury Department, at the request of the President's son, turned over to Walter Davenport, associate editor of the magazine, certified photostatic copies of his tax statements which showed that his annual income never had touched \$50,000. The returns show that in fact his income for the five years in question was as follows:

1932, \$12,714.31; 1933, \$49,167.37; 1934, \$33,593.37; 1935, \$44,668.60; 1937, \$23,834.38.

Referring to statements that he had continued his insurance operations since assuming his post in the White House, Mr. Roosevelt said:

"Since I have been my father's secretary, since I have been in Washington, I have not solicited nor attempt to solicit—no, and I haven't accepted—a single dollar of insurance from anyone, any time, anywhere. Anything to the contrary is a miserable lie."

Mr. Roosevelt described his start in the insurance business in Boston and proceeds to answer one after another the various charges of impropriety which have been made against him.

"I got into places I never would have if I wasn't the son of the President," Mr. Roosevelt stated frankly. "But son or no son, I got tossed out a lot, too. Prospects don't wilt just because you're the son of the President."

To back up this statement, he lists a number of large industrial and utility accounts which he tried to sell without success, because other insurance agents were able to underbid him. These included the North American Corporation, Paramount Pictures, Stone & Webster and the Ford Motor Company.

"Being the son of the President, they'd have been calling me a crook no matter what business I had entered," Mr. Roosevelt stated, "provided of course that I had been successful. If I had graduated from Boston University Law School (which I attended for a time) and had practiced law privately or in the government service—well, use

DAVID SPENCER LIMITED

China Guerillas Widen Operations

Chinese Guerilla Headquarters, Central Hopeh Province, North China (AP) — Japanese soldiers fear Chinese guerilla fighters more than the concentrated armies of General Chiang Kai-shek.

The Japanese are educated in orthodox German strategy—positional warfare—which omits the hit-and-run attacks of the moving guerilla bands of north China. Guerilla tactics are long-term tactics.

"Our tactical instructions always emphasize a protracted war," said General Lu Cheng-Tsao, commander-in-chief of the central Hopeh forces.

"Time is on our side. We must never risk a decisive battle. Therefore we always retreat when the battle is only beginning, preferring to snipe and ambush rather than clash frontally."

"We know that our tactics are succeeding. My army cannot win this war against Japan, nor can any other in positional warfare. But we are all helping to pro-

long the struggle until Japan collapses internally."

DUCE WARMINDED
OCARSOLO, Italy (AP)—Premier Mussolini told 25,000 troops participating in fall manoeuvres yesterday it would be "criminal" for Italy not to prepare for war.

"While cannon boom in so many parts of the world today," he said, "it would be folly to have illusions. . . . This does not escape us, and we are preparing."

Persons who smoke the drug marihuana suffer from hallucinations, often believing they are persecuted.

In a study of deaf children it is concluded that deaf boys are equal in mechanical ability to boys of good hearing.

Pacific Islands To Be Used Jointly

LONDON (AP)—The British Foreign Office announces Great Britain and the United States had agreed on joint use of Canton and Enderbury Islands in mid-Pacific for aviation and other communication. The announcement said: "The governments of the United States of America and the United Kingdom agreed to set up a regime for use in common of Canton and Enderbury in the Phoenix group and for employment of these islands for purposes connected with international aviation and communication with equal facilities for each party. "Details of the regime will be determined in notes to be exchanged between the two governments."

LAND REGISTRY ACT
Section 136
IN THE MATTER of Lots 2 and 3 of
Section 26, Victoria District, Plan 1265.
PROOF having been filed in my office
of the loss of the above-mentioned land,
in the name of William Arthur Irish, and
bearing date the 23rd day of September,
1937, I HEREBY GIVE NOTICE of my in-
tention, at the expiration of one calendar
month from the first publication hereof,
to issue to the said William Arthur Irish
a Provisional Certificate of Inalienable
Title in lieu of such lost Certificate.
ANY PERSON having any information
with reference to such lost Certificate of
Title is requested to communicate with
the undersigned.
DATED this 4th day of August, 1938, at
the Land Registry Office, Victoria, British
Columbia.
K. O. MACDONALD
Deputy Registrar,
Victoria Land Registration District.

NOTICE TO CREDITORS
TAKE NOTICE that all creditors and
other persons having any claims or de-
mands against the estate of Ethel Beatrice
Woffinden, late of the City of Victoria, in
the Province of British Columbia, who
died on the 27th day of April, 1938, are
hereby required to send particulars of their
claims in writing, duly verified by statutory de-
claration, to the executor, the Royal Trust
Company, 1202 Governor Street, Victo-
ria, B.C., on or before the 28th day of
August, 1938, after which date the said
executor will proceed to distribute the
assets of the said deceased among all the
parties entitled thereto, having regard
only to the claims of which it shall then
have had notice.
DATED at Victoria, B.C., this 12th day
of August, 1938.
WHITTAKER & McLELLAN
Solicitors for the Said Executor.

ESTATE OF ANDREW ANTONOVICH
deceased, otherwise known as Andrew
Antonovich, otherwise known as N. A.
Bobel.

NOTICE TO CREDITORS
NOTICE IS HEREBY GIVEN that all
creditors and other persons having any
claims or demands against the estate of
Andrew Antonovich, deceased, otherwise
known as Andrew Antonovich, otherwise
known as N. A. Bobel, who died on or
about the 26th day of June, 1938, at the
City of Victoria, in the Province of British
Columbia, are required to send to the
undersigned, on or before the 2nd day of
September, 1938, their names, addresses
and descriptions, and full particulars in
writing of their claims, verified by Statu-
tory Declaration.
AND TAKE FURTHER NOTICE that,
after the 2nd day of September, 1938, the
said Administrator will proceed to dis-
tribute the assets of the said estate among
the persons entitled thereto, having regard
only to the claims of which he shall then
have had notice, and that pursuant to
Section 26 of the "Trustee Act" the said
Administrator will not be liable for the
said assets, or any part thereof, to any
person of whose claims he shall not then
have had notice, and that he will proceed
to make final distribution of the assets of
the estate at the expiration of one
year after the date of death.
DATED at Victoria, B.C., this 12th day
of August, A.D. 1938.
R. S. COX, Official Administrator,

Central Building, Victoria, B.C.

75 Cents a Head for Mosquitoes

NEW YORK (AP)—In order that New Yorkers, who live in a town of virtually screenless windows, may sleep in peace and safety, the Works Progress Administration is spending \$5,040,000 this year on mosquito control. That is more than 75 cents per person for the city's 7,000,000 residents.

KINGSVILLE Ont. (CP)—Mayor Fred Crawford told a ministerial delegation he didn't think there was anything wrong with Sunday baseball but the objectors will meet with the Parks Board to talk it over further.

ST. JOHN Nfld.—Ancestry of the famous Newfoundland dog has been traced back to 1506 when Basque fishermen visited this island. They brought with them white or cream-colored Pyrenean 'sheep-dogs' used by shepherds to protect their flocks.

ST. CATHARINES Ont.—Be- lieved crazed with heat, a usually gentle cow turned fiercely on a horse, grazing in the same pasture, goring him so badly he had to be destroyed.

AYR Ont.—With the thermometer 90 in the shade above ground, two workmen discovered huge blocks of ice at 25 and 40 feet below, suggesting it may have been there for ages.

SIMCOE Ont.—Check up of names on the guest book of a tea- room here shows Joan Crawford, moving picture star, was there recently and got away without being recognized by local fans.

FORT ERIE Ont.—Tied to a pole for support, a corn stalk on John Robinson's place measures 14 feet high. Farmer Robinson believes it a record, hereabouts any- way.

BERLIN—Streams of Jews visit United States embassies and consulates in Germany to look at American city directories for ad- dresses of relatives who might help them migrate to America.

SUMMERSIDE, P.E.I.—A large oyster, taken from the waters of Bedeque Bay, is on display here. The mollusc measures eight inches in length and is five inches broad.

MARBLE BAR, Australia—Smiler, an aged native, was sen- tenced to two years' banishment from his tribe for killing a fellow tribesman.

KABUL—Farm experts of Afghanistan, India and Mos- cow met here to consider means of checking breeding and migra- tion of locusts with consequent heavy damage to crops.

JOHANNESBURG—Hoping to produce something brainier than the mule, a South African farmer is figuring on breeding "zebroids"—a cross between a horse and zebra stallion.

PRETORIA—List of books banned by the South African Union censor now includes works of Honoré de Balzac and Francois Rabellas, because "sex plays too conspicuous a part in them."

WELLINGTON—The New Zea- land government has approved construction of a railway tunnel five and a half miles through the Rimutaka Range at a cost of \$4,937,500.

LANARK, Scotland—Shortly after crossing the finishing line in first position, Sparkler, four- year-old racehorse, collapsed and died. Death was due to a rup- tured heart.

HIGH WYCOMBE Eng.—Sponsored by an athletic club, an old folks' outing for the third year in succession was marred by tragedy when a woman guest was killed in an automobile crash.

LONDON—A motorist who drove three friends to work and accepted 75c a week from each to

help pay running costs, was fined \$100 for using his automobile as a public service vehicle.

WYNBERG, South Africa—Mrs. M. J. Smith's "mania" for tins was understood after her death here. Living as a recluse, she stored her money, about \$80,000, in the tins. She didn't trust banks.

BOMBAY—Sentencing a bill collector to five months' im- prisonment for theft, a magi- strate here rebuked employers who paid him wages of 45 rupees (about \$16.20) a month.

DURBAN, South Africa—J. Grossert, railway station inspec- tor who retired recently after 45 years' service, said he had not once been late for duty.

CARDIFF, Wales—Tinker, a tobacco-chewing 21-year-old South Wales pit horse who won't start work in the morning until he has had his "quid," won the veterans' prize at the Royal Show here. He has worked underground 16 years.

EDMUNSTON, N.B.—In the lobby of a hotel here a hand- made chair fashioned from a pecu- liarly formed cedar tree at- tracts attention of visitors. A wealthy big game hunter from the United States once offered \$700 for it, but the owner re- fused. Solomon Levesque, a Campbellton carpenter, made the chair 20 years ago, carving it from a huge bulge formed on the side of a cedar after sap stopped flowing evenly through the tree.

R.A.F. RECRUITING TO BEGIN IN FALL

Ottawa Reports Progress In
Canadian Defence Works
on Both Coasts

TORONTO—Recruiting in Can- ada for the Royal Air Force may be started some time next month, as negotiations between the na- tional defence department and the British air ministry moved forward with rapid strides, says a special dispatch from Ottawa to the Toronto Star.

"A very, very satisfactory dis- cussion took place between Group Commandant J. M. Robb, com- mandant of the Central Flying school in England, and myself; and we are continuing our con- ferences," Col. L. R. Lafleche, deputy minister of national de- fence, said. "A great number of your young men," Group Capt. Robb stated, "are coming to Eng- land to join the R.A.F. and it is thought feasible to keep them at home and train them here."

Speeding up the arrangements, Group Capt. Robb is in daily com- munication by cable with his su- periors in London; and the in- formation is an official announce- ment of the successful conclu- sions of negotiations possibly may be made before he sails to return to England. He already has visited Camp Borden and Trenton and plans to make other inspections before sailing.

MINESWEEPERS LAUNCHED
This week, the H.M.C.S. Comox, second of Canada's new mine- sweepers was launched at North Vancouver.

Today H.M.C.S. Gaspe will be launched at Quebec; while about August 25 the fourth mine- sweeper, H.M.C.S. Nootka is ex- pected to be launched at North Vancouver. The minesweeper Fundy for service on the Atlantic Coast was launched at Colling- wood last month.

For service at Esquimalt on the Pacific, the new Canadian de- stroyers, Ottawa and Restigouche, will leave Devonport, Eng., around the first of the month, proceeding via the Panama Canal direct to their station. These will bring the number of destroyers on the Pacific to four, the Skeena and Fraser being already there. The

COMEDY AND DRAMA—Scene from "Having Wonderful Time," featuring Ginger Rogers and Douglas Fairbanks, now showing at the Capitol Theatre.

"Kidnapped" Is Now at Atlas

C. Aubrey Smith Has
Third Role With
Freddie Bartholomew

All good things come in threes and for C. Aubrey Smith, the cur- rent 20th Century-Fox produc- tion of Robert Louis Stevenson's "Kidnapped," marks his third important role with Freddie Bar- tholomew. The doughty British gentleman who endeared himself to the millions in his character- ization of the old grouch in "Little Lord Fauntleroy," made another hit with Freddie in "Lloyds of London." Now C. Aubrey has an important role in support of Warner Baxter and Freddie in the stirring story of love and ad- venture, coming to the Atlas Theatre today, which Stevenson considered his best story.

COLUMBIA THEATRE
Binnie Barnes sustained bruises and lacerations during the shooting of Reliance's "The Last of the Mohicans," showing today at the Columbia. The action called for a group of hos- tile Indians to grab her. Binnie re- sisted, stumbled and fell on some sharp rocks. Result: aforesaid injuries.

Second Mercury Flight Delayed

Pickback Plane to
Recess Atlantic
in September

MONTREAL—Imperial Air- ways long-range seaplane Mer- cury, due in Montreal on its second transatlantic flight next week, will not come until early in September, according to a cable received today by the Trans- Canada Air Lines. The flight has been postponed due to a decision of the Imperial Airways to use the Mercury elsewhere for the time being. Where this is has not been revealed. In the mean- time arrangements are going for- ward at Boucherville, on the St. Lawrence River, for her recep- tion. Several changes have been made in the moorings. No. 1 buoy is now 330 feet abreast of the landing stage and No. 2 buoy has been placed 400 feet up- stream. The changes are to facili- tate takeoffs. It will now be pos- sible to release the plane from the landing stage if necessary in- stead of from a boat. A tail line 300 feet long is used with a quick release device.

Mercury made history July 20 and 21 when she flew nonstop to Montreal from Foyers, Eire, in a little more than 20 hours. It was the first commercial flight over the North Atlantic route. Mer- cury crossed the 2,000 miles of ocean in 13 hours 29 minutes, eclipsing the previous record of 14 hours 24 minutes set by the flying boat Cambria a year ago.

Now the Lowly Tugboat Is Being Streamlined

BAY CITY, Mich.—The chug- ging steam tugboat, familiar sight in every harbor in the world, has a new rival—a Diesel- electric powered tug with a drive similar to that employed on many streamline trains.

The first of two new tugboats, the Thomas E. Moran, equipped with geared Diesel-electric drive, has been launched here at the Defoe Boat and Motor Works for a New York City transportation firm. Two eight-cylinder Diesel engines develop 1,350 horsepower and drive a generator that sup- plies current to a motor which, through reduction gears, trans- mits power to the propeller.

The average temperature of burning buildings is 1,700 degrees Fahrenheit, because brass melts at this heat, and it is generally found not melted or just on the verge.

Ginger Rogers With Fairbanks

Appearing in "Having
Wonderful Time," Now
at Capitol

RKO Radio film version of Ar- thur Kober's Broadway stage hit, "Having Wonderful Time," which had its initial showing to- day at the Capitol Theatre, brings Ginger Rogers and Dou- glas Fairbanks Jr. in a trium- phant, co-starring drama with comedy.

The story is a simple but hu- man chronicle of two young people frantically trying to grasp a few hours of blissful romance in a vacation camp.

Ginger Rogers' role offers her dramatic as well as comedy op- portunities, and in this respect it parallels her fine performance in "Stage Door." Fairbanks' char- acterization is a fitting sequel to his recent successes in "The Pri- soner of Zenda" and "Joy of Living."

Vivid realism and appeal mark the unique cross section of life as presented by the characters found at the typical vacation re- sort. More than 50 speaking roles are ably portrayed by Peggy Conklin, Richard "Red" Skelton, Lucille Ball, Lee Bowman, Ann Miller and Donald Meek.

Jane Withers At Dominion

Popular Young Star
in 20th-Century-Fox's
"Keep Smiling"

In what is by all odds the grandest picture she has ever made—the happiest, the funniest, the heart-tugging-est—Jane Withers comes to the Dominion Theatre today in "Keep Smiling," first of 20th Century-Fox's 1938-39 pictures for the popular young star. Gloria Stuart, Henry Wil- coxon, Helen Westley, Jed Prouty, Douglas Fowley and Robert Allen are also in the cast.

"Keep Smiling" affords Jane almost unlimited range for her high spirited talents, and she keeps you laughing, thrilling and living every exciting moment of it.

Wilcoxon appears as an extra on the set where Jane is being coached for the star role. When the director, who tries to make Jane look bad, "blows up" on the job, Wilcoxon is offered the pilot's seat—and with Gloria Stuart once more at his side, the romantic situation is well in hand.

PLAZA THEATRE

Parkysarkus, dialect com- edian who for years stooged for Eddie Cantor on the air, is fea- tured as "Gashouse," a dumb crook, at the head of the cast in RKO Radio's "Night Spot," now at the Plaza Theatre, in which Allan Lane and Joan Woodbury have romantic leads.

"Parky" has appeared in such recent films as "She's Got Everything," "The Life of the Party" and "New Faces of 1937."

OAK BAY THEATRE
Two famous products of the Max Reinhardt repertoire com- pany, known wherever acting is known are united in Warner Bros. production of "The Life of Emile Zola" now at the Oak Bay Theatre. They are William Dietel, the director, who served his apprenticeship as actor and director under the master, and Joseph Schildkraut, who has the highly important role of "Cap- tain Dreyfus."

POPULAR YOUNG STAR HERE—She's made you laugh a lot and cry a little, but you haven't seen anything until you watch Jane Withers take Hollywood apart—and put it to- gether again—which is just what she does in the new 20th Century-Fox hit, "Keep Smiling," now at the Dominion Theatre. Above, Jane is shown with Gloria Stuart and Henry Wilcoxon.

THE RED CROSS WORKSHOP

325 Million Crop Seen Still Possible

WINNIPEG — The Winnipeg Free Press crop report today says:

"Western Canada can still harvest a crop exceeding 300,000,000 bushels, and if the present conditions in the province of Alberta are maintained the final yield for the prairies might reach 325,000,000 bushels.

"A sharp recession has occurred in Saskatchewan conditions in the last three weeks from rust, hail and grasshoppers taking a heavy toll in crop districts which had previously shown great promise. It would appear that Saskatchewan crop will fall below the 10-year average.

"Crops in Manitoba have been aided by beneficial showers and conditions have been maintained, with correspondents estimating the second best crop in six years.

"Present prospects in Alberta point to the best crop since 1932 when 167,000,000 bushels were harvested. This province appears to have escaped the rust scourge and to have been aided by timely rains. Crops are later than in other provinces and frost looms as a distant hazard. The next two weeks will be critical."

Bund Ousted Ambassador

WASHINGTON (AP) — The House of Representatives committee investigating un-American activities heard testimony today Hans Luther, long-time German ambassador here, lost his job because he did not co-operate fully with the German-American Bund, a Nazi organization.

John C. Metcalfe, German-born committee investigator, said he was told this by Fritz Kuhn, bund leader who accepted Metcalfe into membership and hired him for a speaking tour.

During this tour, particularly in Los Angeles, Metcalfe said, local bund members complained of lack of full co-operation with German consuls, particularly in obtaining storm trooper uniforms.

Kuhn flew into a rage when this was reported back to him, Metcalfe recounted, and declared: "What's the matter with them? I've removed Hans Luther. I have secret relations with Germany whereby I can get anything I want. These consuls will be removed and we'll get the kind of consuls there we want."

Dr. Hans Dieckhoff is the present ambassador from Germany.

New Social Credit Bill in Alberta

BASHAW, Alta. (CP) — A new Social Credit plan for the issuance of credit will be introduced in Alberta this fall, Hon. E. C. Manning, Provincial Secretary, told a party rally here yesterday.

Mr. Manning's announcement was interpreted to mean the possibility of a fall session of the Legislature at which the new credit legislation would be introduced.

You Can't Know All Your Friends

There are always people, whom you don't know, ready to say a good word for you. Maybe they have heard about you from someone else, or perhaps they just like your looks, or something you have said or done. The more you are in the public eye the harder it is to meet everyone of your well-wishers personally.

Your business has the same problem—how to meet and keep its friends. You can never know them all, but you can cultivate their goodwill right in the friendly columns of their daily newspaper.

Use the daily newspaper for your advertising. It has the confidence of its readers. It is an accepted part of their daily life. It can help, more than any other medium, to place your business or your product on the same footing.

CANADIAN DAILY NEWSPAPERS

CAMERAMAN — News photographers leap away as walls crumble at big fires, climb to dizzy heights for an unusual aerial view, go down to the ocean floor in divers' suits—and sometimes even risk the dangers of a tall silk hat and tails. Ray Rousseau, a Paris staff cameraman, is shown in the costume he was required to wear as he went about his task of photographing the King and Queen of England on their recent state visit to the French capital.

SCIENCE LEADERS MEET IN BRITAIN

Copyright, 1938

LONDON—British and American scientists are meeting today and until next Monday for preliminary discussions of an Anglo-American scientific alliance and the possible organization of a new international body that will study and act upon the problems arising from the impact of science upon society.

The conference is being held at the Chelmsford country estate of Lord Rayleigh, president of British Association for the Advancement of Science, which will convene its annual session at Cambridge, August 17.

Representatives of the American Association for the Advancement of Science attending are: Dr. George David Birkhoff, Harvard mathematician and past president of the A.A.S.; Dr. Herbert E. Ives, Bell Laboratory physicist; Dr. Harold G. Moulton, president of the Brookings Institution, Washington, and Dr. F. R. Moulton, permanent secretary of the A.A.S.; Dr. Earl B. McKinley of Washington, last on the Hawaiian Clipper in the Pacific, was on the original list of delegates.

British representatives in addition to Lord Rayleigh include: Dr. O. J. R. Howart, secretary of the B.A.A.S., and Sir Richard Gregory, editor of Nature.

Considerable sentiment has been aroused in England for an enlargement of the activities of the British Association to meet the needs of changing world conditions. The American Association at its last annual meeting suggested the possibility of co-operation between the two national organizations, particularly as concerns the social relations of science.

The Chelmsford conference, which will be secret, is expected to prepare proposals for submission to the British Association meeting the following week.

GEORGE RAFT IN DISPUTE

HOLLYWOOD, Cal. (AP) — Paramount Studios yesterday suspended George Raft from its contract list, charging that he refused to report for work in the picture "St. Louis Blues."

Adolph Zukor, chairman of the studio's board of directors, said he had been notified by Myron Selznick & Co., Raft's agent, that the movie star would not accept the leading role unless his option was renewed.

DIVIDENDS

International Mining, 10 cents, payable September 20 to shareholders of record August 31.

Wheat Makes New Low for Season

WINNIPEG (CP) — Winnipeg wheat prices drifted to new seasonal lows near the close of the session today. Absence of any particular support coupled with moderate selling by local and southern houses sent prices to lower levels in drab trading.

The finish found quotations 1/2 to 1/4 lower with October at 68 1/2, November 69 1/2, December 68 1/2, and May 71 1/2 to 71 3/4 cents.

Most selling was credited to southern accounts involving spreading operations with Winnipeg October being sold against purchases of Chicago futures.

Export dealings were at a minimum with only odd lots traded. Outside interest was dormant and most support came from locals and commission houses. Buying was scattered.

Outside markets dipped lower also. Chicago was fractionally lower most of the morning and Buenos Aires was 1/4 lower to 1/2 higher at noon.

Liverpool closed 1/4 to 1/2 down. Pit trade in coarse grains was quiet with some activity in barley where hedging pressure and some export demand showed.

Cash wheat trading was light in most sections. No. 1 northern was down 1/4 at one time. Some export interest appeared in durums.

OUR BOARDING HOUSE, with Major Hoople

OUT OUR WAY—By Williams

Uncle Ray

Famous Airplane Flights

V—THREE DAYS AND NINE-TEEN HOURS
Hundreds of tons of paper, torn into bits, fluttered down from New York's office buildings when Howard Hughes came back to town. He had been away a few days, on a little world trip.

A time change in four centuries.
Not long ago, I made a world trip, but it took me six months! Hughes and his comrades did it in three days and 19 hours.
On Saturday evening, July 10, the plane left New York. Hughes tells us that the take-off was "the most dangerous part of the trip," because of the gasoline which the tanks were loaded. "We had a wing load of 47 pounds to the square foot, and that is the greatest load I have ever heard of," he said after his return.

The tail-wheel was damaged on the take-off, but the plane (which was also loaded with the long name "New York World's Fair 1939") zoomed away, and landed at Paris the next day. This lap of the journey was covered in half the time used by Lindbergh in 1927.

The aviators sped from Paris to Moscow, and were roundly cheered by a waiting throng. It was daylight when they got there, but it was night over here. Hughes' voice came by radio from Moscow, and I was interested in the magic of it all—the speed of the journey and the traveling of a voice thousands of miles over the ocean in a split second.

The crossing of Russia was marked by some danger because his maps said certain mountains were about 3,000 feet lower than they really are. There had to be some fast climbing to keep from striking a peak.

Over Alaska, south eastward across Canada, eastward across the United States—and then New York once more! It was a splendid journey—well planned, well managed and well finished.

Although I have never met him I like Howard Hughes, and I have three special reasons for doing so. In the first place he is a rich man's son, the heir to a great fortune, but he has not let his riches keep him from trying to do worthwhile things. Secondly, he is a good planner. His flight was not made in the spirit of a "stunt." With great care, he figured what would be needed, and he chose able men to go with him. He made every effort to guard the lives of those on board. Last, and not least—he seems to know how to wear the crown of glory.

More than four centuries have passed since one of Magellan's five ships got back to Spain after the first round-the-world journey lasting almost three years. What would Magellan say if he could know about the trip by five men aboard a flying machine?

UNCLE RAY.

HOROSCOPE

"The stars incline, but do not compel."
SATURDAY, AUGUST 13, 1938
Although benefic aspects dominate today, according to astrology, adverse influences are active. Both good news and bad may be expected regarding international relations.

Women are fortunate under this configuration which stimulates energies and directs attention to outdoor recreations and pleasant hospitalities. There is a sign presaging use of needles by women of every class. Knitting as well as sewing will engage serious attention.

Washington and New York will continue to be Meccas for distinguished foreign visitors who would strengthen international ties. Astrologers insist that isolation will be impossible for the United States in case of another war.

Sports are to establish many pleasant contacts with European devotees and will exercise a certain influence in future relations with foreign powers.

Persons whose birthdate it is have the augury of a year of mysterious and puzzling developments in domestic and business affairs. Journeys are indicated for men.

Children born on this day probably will be intellectual. Many lovers of books belong to this sign.

Movie Scrapbook

RUFUS DAVIS

SPENT EARLY YEARS CHOPPING COTTON IN OKLAHOMA.

QUIT JOB AFTER WINNING \$5 AS AMATEUR GUITAR PLAYER.

PITCHED WAY IN HANGS TO PAY FOR MUSIC LESSONS.

FILM SCOUT DISCOVERED HIM IN NIGHT CLUB.

FIRST FILM ROLE WAS IN "MOUNTAIN MUSIC!"
A PRODIGENT "MUGGER," HE'S KNOWN AS THE MAN WITH THE RUBBER FACE.
SANG, DID IMITATIONS IN VODVIL FOR EIGHT YEARS.

Dorothy Dix's Letter Box

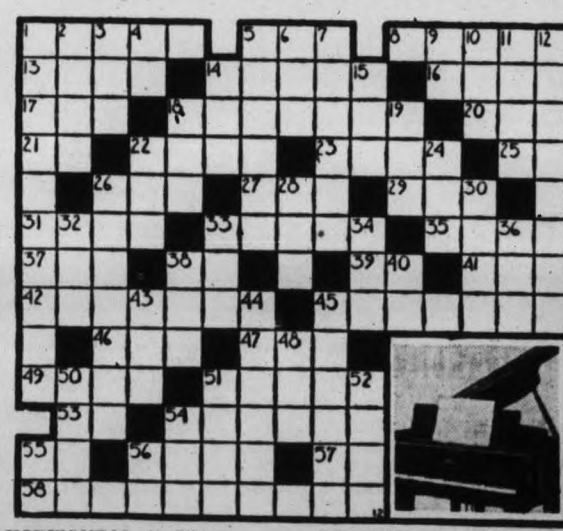

DEAR MISS DIX—I am in a terrible predicament. My mother is queering all of my dates and cutting me out of having good times, and, unless something can be done about it, it will eventually keep me from marrying by always being Sally-on-the-spot whenever a boy comes to see me. Time and time again she has driven boys away who showed they were interested in me by taking her seat in the room when they called and monopolizing all the conversation, telling all about her rheumatism and what a cute baby I was and family jokes until the poor things were so bored they never came back again. I have spoken to my mother about this, but it only made her furious. She says we shouldn't say anything we are not willing for her to hear. We don't. But it just embarrasses a boy to have a girl's mother listening in. Just now I have a boy friend whom I like very much, but after coming two or three times and spending the evening listening to mother he is cooling off. She is breaking us up. What can I do?
MABEL.

Answer—Belling the cat is nothing as a feat of skill to gagging a garrulous woman. The task is particularly difficult when a daughter tries to do it, for mother always thinks that she knows best and that it is impertinence for a child to tell her of her faults. As a matter of fact, no woman should need to be told that when young men come to the house they come to see her daughter and not to see her. Nor should she need to be reminded that no youth's idea of spending a pleasant evening consists in listening to mother's reminiscences.

It would also seem that even the most forgetful woman would remember how murderous she felt when she was a girl and her mother eavesdropped on her and her beaux and regaled the breakfast table the next morning by repeating the inanities of their conversation. Furthermore, it would seem that even a moronic mother would recall that when the boys found that mother was a fixture in the parlor when they said good-night it was, indeed, GOOD-NIGHT forever.

The reason that many an attractive girl never has any attention from men is because she has too much mother. She clutters up the scene with her presence. She never remembers that two is company and three is a crowd. She never gives the girls a chance to strut their stuff or the men an opportunity to propose.
